# **STATISTICAL ABSTRACT INDIA 2002**

सत्यमेव जयते

**CENTRAL STATISTICAL ORGANISATION  
MINISTRY OF STATISTICS & PROGRAMME IMPLEMENTATION  
GOVERNMENT OF INDIA  
NEW DELHI**

---

© Government of India Copyright, 2003

1. Based upon Survey of India Map with the permission of the Surveyor General of India
2. The territorial waters of India extend in to the sea to a distance of twelve nautical miles measured from the appropriate base line.
3. The interstate boundaries between Arunachal Pradesh, Assam and Meghalaya shown on this map are as interpreted from the North-Eastern Areas (recognition) act, 1971. but have yet to be verified.
4. The administrative head quarters of Chandigarh, Haryana and Punjab are at Chandigarh
5. The responsibility for the Correctness of internal details rests with the publisher.

---

## FOREWARD

Central Statistical Organisation (CSO) in the Ministry of Statistics and Programme Implementation is the nodal agency for coordination of statistical activities and integrated development of the statistical System of the country. C.S.O. has also the responsibility of dissemination of statistics on various important subjects. One of the most important annual publication viz. Statistical Abstract, India provides statistics/indicators on various socio-economic sectors of the economy. The current 2002 issue of the Abstract gives statistics on various subjects at national and state level for the latest available year. For the benefit of the users, efforts have been made to provide explanatory notes showing the description of tables, methodology of data collection and its coverage, definitions of the terms used as well as the data source.

2. The present issue of the publication is the 39th edition in the series. It contains time series data for national aggregates generally for 1990-91 and onwards, up to the latest available year. The national aggregates are followed by State-wise data for the latest year so as to reflect the comparative development scenario amongst the State /Union Territories. Sources of data, presented in various tables included in the publication, are invariably indicated at the bottom of the tables.

3. The CSO is grateful to various Ministries/Departments and Public Undertakings under the Central and State Governments for their cooperation in supplying the data to CSO for bringing out this issue of the publication in a very comprehensive and informative form.

4. Data maintenance, its validation, compilation and updation, preparation of charts and Graphs, and generation of the manuscript have been carried out in the Statistical Intelligence Unit of CSO. The officers and staff of the Unit have done a commendable job in bringing out the publication under the guidance of Shri V.K. Gupta, Joint Director assisted by Smt.G.Mythili, Deputy Director, Shri Tej Vir Singh and Shri Umed Singh, Assistant Directors.

5. I hope this publication will be useful to the planners, policy makers, research workers and academicians in knowing the various facets of rapidly changing socio-economic scenario of the country. We, in this Organisation, constantly endeavor to improve the usefulness of the publication. Suggestions/ comments for further improvement in the content and quality of the publication are welcome.

June, 20, 2003  
New Delhi

# CHAPTER 1

## Area and Population

This section includes abstract of available data on area and population of the Indian Union based on the decadal Census of population.

Table 1.1

This table contains data on area, total population and its classification according to sex and urban and rural population. In the Census, urban area is defined as follows:

- (a) All statutory towns i.e. all places with a municipality, corporation, cantonment board or notified town area committee.
- (b) All other places which satisfy the following criteria:
  - (i) a minimum population of 5,000.
  - (ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and
  - (iii) a density of population of at least 400 persons per sq.km.

Besides, Census of India has included in consultation with State Governments/ Union Territory Administrators, some places having distinct urban characteristics as urban even if such places did not strictly satisfy all the criteria mentioned under category (b) above. Such marginal cases include major project colonies, areas of intensive industrial development, railway colonies, important tourist centres etc.

In the case of Jammu and Kashmir, the population figures exclude information on area under unlawful occupation of Pakistan and China where Census could not be undertaken.

Table 1.2

The table gives State-wise population enumerated in eleven censuses from 1901 to 2001 along with the decennial figures. In Table total figures have been indicated and not the percentage variation.

Table 1.3

This table presents data on birth rate, death rate and infant mortality rate by residence as revealed by Sample Registration System.

Table 1.4

Expectation of male and female lives at birth and at ages 10,20,30,40,50, 60 and 70+ years in the various years for all India is shown in the table.

Table 1.5

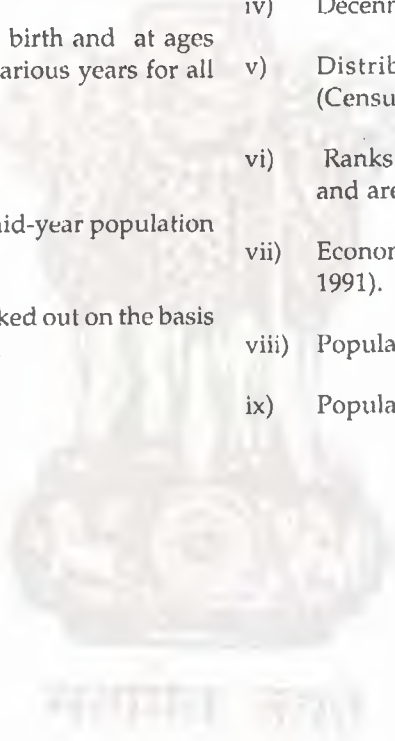

This table shows State-wise estimated mid-year population for the years 1991 to 2001.

Estimates from 1995-2000 have been worked out on the basis of results available from paper 1 of 2001.

General Notes:

The latest Census data available is for the year 2001. Most of the data relating to 1991 census has been repeated in earlier issues of Statistical Abstract India 1997 and as such these have not been reproduced here. A list of such tables are as follows:

- i) Area and Population by districts (Census-1991).
- ii) Number and Population of towns (by classes) and villages (Census-1991).
- iii) Population of cities (Census-1991).
- iv) Decennial growth of population by Census.
- v) Distribution of population and area by Density (Census-1991).
- vi) Ranks of States and Union Territories by population and area (Census-1991).
- vii) Economic Classification of the population (Census-1991).
- viii) Population by Religion (Census-1991).
- ix) Population of Scheduled Caste and Scheduled Tribes.

Source : Office of the Registrar General of India, Ministry of Home Affairs

- (1). Census was carried out for the first time in 1961.
- (2). The 1981 Census could not be held in Assam, Total population for 1981 for Assam has been worked out by interpolation. The growth rate for 1971-81 and 1981-91 have been worked out on the interpolated population figures for Assam 1981.
- (3). The 1991 Census could not be held due to disturbed condition. Hence the population figures for 1991 of J & K have been worked out through interpolation.
- (4). The population of India includes the estimated population of entire Kachchh district and Morvi, Malia-Miyana and Wankaner talukas of Rajkot district, Jodiya taluk of Gujarat state and entire Kinaur district of Himachal Pradesh where population of Census of India, 2001 could not be conducted due to natural calamities.

# CHAPTER 2

## RAINFALL

INDIA METEOROLOGICAL DEPARTMENT (IMD) is the central agency which records, and archives rainfall data in India. The IMD maintains a large rainguage network consisting of various types of observatories. As on January 2001, the network consists of 655 surface observatories and 633 hydromet observatories.

In addition, rainfall data are also recorded at 7606 observatories maintained by various state governments and other non-IMD agencies. Since 1992, IMD had introduced DRMS under which 2671 selected observatories (398 surface observatories + 190 hydromet observatories + 2083 state rainguage stations) record rainfall and transmit to the respective Regional Met Centres of the IMD on real time basis for better rainfall representation. The rainfall data given in this section in respect of 35 meteorological sub-divisions of India are derived from the Districtwise Rainfall Monitoring Scheme (DRMS) observatories.

Daily rainfall is recorded at 08.30 hours everyday throughout the country. The daily rainfall at an observatory is the total rainfall for the preceding 24 hours ending at 08.30 hours of the date of the measurement. The monthly rainfall is the sum of all the daily rainfall recorded during that month.

The monthly "Actual rainfall" of a sub-division for a month of a year is the mean of monthly rainfall of all the stations in that sub-division for which rainfall data are available for that month. The sum of actual monthly rainfall for the 12 months is the "actual annual" rainfall of the sub-division for that year. Similarly, the monthly "normal rainfall" of the sub-division is the mean of monthly normal rainfall of the corresponding stations and "annual normal rainfall" is the sum of the monthly normal rainfall for all the 12 months.

The 'monthly normal' rainfall of a station was calculated using all the available data during the period 1901-1970.

Table 2.1 gives sub-divisionwise actual and normal monthly rainfall in the months and annual scale.

Table 2.2 gives sub-divisionwise annual actual rainfall.

Note: Figures for the year 1991 are based on observatory data while the figures for 1995 onwards are based on Districtwise rainfall monitoring scheme data.

AGRICULTURE

STATISTICAL ABSTRACT

# CHAPTER 3

## AGRICULTURE

This section contains tables regarding pattern of land utilisation, area, production and yield per hectare of principal crops in India. The section also contains a table on index numbers of agricultural production and on agricultural implements and machinery. The source for these data is the

Ministry of Agriculture, which, however collects primary data from individual State Authorities.

Table 3.1

### Reported Area

This table presents data regarding area classified by categories of land utilisation which are explained below:

Reported Area is the area for which information on 'land use by classification of area' is available. Generally land utilisation figures are based on the returns prepared by the village staff for revenue purposes.

Area under 'forests' includes area actually forested or lands classed or administered as forests under any legal enactment dealing with forests whether State-owned or private and whether wooded or maintained as potential forest land. The area of crops raised in the forests and grazing lands open for grazing within the forests are also included under the forest area.

Figures of forest area shown in the table do not tally with corresponding figures of area given in forest section for the following reasons:

- (a) Differences in periods covered: The period of preparation of two sets of figures differ.

These figures based on Agricultural Statistics Returns generally relate to the Agricultural Year (July-June) where as the forest area presented in the forest section relates to the financial Year (April-March).

- (b) Diversity in the meaning attached to the term "Area Under Forests" in the Indian Forests Statistics Returns, the whole area including non-wooded area under the control of Forests Deptt., is utilisation.

- (c) Differences in coverage: Forest Deptt. reports are expected to cover all forest areas in the States but Agricultural Statistics relate only to the reporting area.

Area not available for cultivation is the land which is absolutely barren or uncultivable or covered by building, water, roads, railways, mountains, deserts or otherwise appropriated for non-agricultural purposes.

Other unclcultivated land excluding current fallows, include the following categories:

- (i) Permanent pastures and other grazing lands which cover all grazing land whether they are permanent pastures and meadows or not and village common grazing land.
- (ii) Land under miscellaneous trees, crops and groves not included in the net area sown which includes all cultivable land, not included under area sown but put to some agricultural use. Land under casuarina trees and others groves for fuel, etc. which are not included under orchards, are also included in this category.
- (iii) Culturable Waste land which includes all land available for cultivation but not taken up for cultivation or taken up for cultivation once but not cultivated during the year and the last five years or more in succession.

Fallow land implies all land which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. "Fallow land" has been split up into (i) "current fallow land"; and (ii) "other fallow land". Land lying fallow for a period of one year, are included under "current fallows", those lying fallow for more than one year but less than five years, are

included under "other fallow land" while those fallow beyond a period of five years, are included under "culturable wastes" or under "miscellaneous tree crops and groves" (not included under net area sown) as the case may be.

Net area sown, area sown more than once and total cropped area:- In computing the aggregate net area sown, area sown more than once has been counted only once. However, while calculating the total cropped area, if different crops are raised in a year on a given land, the same area is accounted more than once.

#### Tables 3.2 and 3.3

Figures are given for area and production of principal crops in tables 3.2 and 3.3 respectively. Regular all India forecasts are issued in regard to most of these crops viz., all food grains, oilseeds, fibres, potatoes, sugarcane, ginger, black pepper, chillies and tobacco. The estimates of area and production of coffee, tea and rubber are based on special returns received from the State Governments in connection with the all-India publications on these crops. For some recent years, however, in the absence of necessary data, from the State Govts., figures as available from Coffee Board, Tea Board & Rubber Board have been provisionally adopted.

The data relate to crop year ending June unless otherwise stated. Figures for the latest year are the final forecasts while those for the year 1996-97 are partially revised estimates as issued from time to time along with final forecasts. Figures for earlier years are fully revised estimates.

#### Table 3.4

This table presents data regarding average yields of principal crops in quintals per hectare. Average yields per hectare of principal crops have been obtained by dividing the total production by the corresponding total area under each crop. All India and State average yield per hectare has generally been calculated on the basis of area and production figures rounded up to hundreds in the case of forecast crops. In the case of tea, coffee, rubber and minor crops average yield has been calculated on the basis of area and production figures upto the unit place. In the case of coffee yields per hectare relate to plucked area and in the case of rubber to tapped area.

Table 3.5

This table shows the index of agricultural production in India on base : Crop years-triennium ending 1981-82=100. The index covers 42 crops divided into two main groups and 8 sub-groups. Weights have been assigned to different crop indices in proportion to the total value of production of each crop during the base periods. The output has been evaluated at annual harvest prices prevailing during the year. In a few cases where reliable harvest prices were not available, average wholesale-prices during the post harvest period have been used with appropriate adjustment. Weights allotted to each crop are mentioned in the table. During recent years a number of additional crops have been covered under the system of crop estimation. The coverage of the all India series has thus been enlarged by including these additional crops viz., fruits and vegetables, turmeric & arecanuts, guar seed etc. These 42 crops now account for nearly 96% of total gross cropped area in the country.

The change over during the last decade or so from the traditional method of reporting area and production of crops to the method of complete enumeration in the case of area and to crop estimation survey for estimation of yield rates and also increase in reporting area, have taken place progressively in respect of different crops in different states. To provide for these changes in coverage and methods of estimation, the index numbers of agricultural production are constructed by the chain-base method under which the production of a crop during a year is expressed as a relative to that of the corresponding production in the preceding year, based on the same coverage and methods of estimation.

These relatives for each crop are linked to the base year through the intervening chain relatives to give the production index for the crop.

The application of chain-base method involves two assumptions which are:

- (i) The variation in production in the non-reporting areas is the same as that in the reporting areas in the aggregate; and
- (ii) the relative variation in the figures of production based on crop-estimation surveys is the same as that based on the traditional method of crop estimation employing eye-appraisal and normal yield figures.

The practical implications of (ii) above are that for the transitional year, that is, when the method of estimation undergoes a change the estimates of production should be available on the basis of both the traditional method and the crop-estimation surveys.

$$\text{Index of Agricultural Production} = \frac{(a_{ij} \ y_{ij} \ p_{io})}{(a_{io} \ y_{io} \ p_{io})} \times 100$$

or

$$= \frac{(P_{ij} \ p_{io})}{(P_{io} \ p_{io})} \times 100$$

where  $a_{ij}$  = area under the  $i$ th crop in the  $j$ th year.

$a_{io}$  = area under the  $i$ th crop in the base period.

$y_{ij}$  = yield per hectare of the  $i$ th crop in the  $j$ th year

$y_{io}$  = yield per hectare of the  $i$ th crop in the base period.

$p_{io}$  = price per unit of the  $i$ th crop in the base period.

$P_{ij}$  = production of the  $i$ th crop in the  $j$ th year.

$P_{io}$  = production of the  $i$ th crop in the base period.

Table 3.6

This table gives an account of agricultural implements and machinery in actual use as recorded in the quinquennial livestock censuses. Statewise details are given for the livestock census year 1992.

# CHAPTER 4

## Livestock and Fisheries

This section contains tables regarding livestock and fisheries. Data regarding the number of livestock and poultry, besides agricultural implements (shown separately under Agriculture) and fishing, crafts & tackles are collected through a Census conducted quinquennially.

The 15th Livestock Census was conducted in different States with 15th October, 1992 as the reference date. While some of the States carried out the Census as per schedule, others had to postpone it due to administrative and organisational difficulties. The States/Union Territories which conducted Census with different reference dates are given below:

States/Union Territories	Date of Reference
Arunachal Pradesh, Gujarat, Goa, Haryana, Himachal Pradesh Madhya Pradesh, Maharashtra,  Manipur, Meghalaya, Mizoram, Nagaland, Rajasthan, Tripura, Andaman & Nicobar Islands, Chandigarh, Dadra & Nagar Haveli, Lakshweep and Pondicherry	15-10-92
Andhra Pradesh	15-10-93
Uttar Pradesh	15-04-93

Jammu & Kashmir	30-04-92	<b>Tables 4.3 and 4.4</b>
Tamil Nadu	15-10-94	These tables give the production of milk and estimates of raw wool and eggs production in India.
West Bengal, Delhi & Orissa	31-12-94	
Assam, Bihar, Karnataka, Kerala, Punjab, Sikkim,		<b>Tables 4.5 and 4.6</b>
Daman & Diu,	Not conducted but figures are projected	Table 4.5 presents data regarding fish catch and landings by groups of species. Table 4.6 provides data regarding quantity of fish catch by disposition.

In the Tenth Plan work of live stock census has been transferred to the Animal Husbandary Departement both in the states & centre.

#### Tables 4.1 and 4.2

Table 4.1 provides data regarding number of livestock by category of livestock. This also shows the number of poultry. Table 4.2 presents number of adult male cattle and buffaloes used for work only.

Table 4.1-LIVESTOCK AND POULTRY

('000 number)

# CHAPTER 5

## FOREST

This section contains tables on area under forest by type, forest produce and revenue and expenditure including progress of afforestation. The Present tables have been extracted from "Forestry Statistics India 2001" published by Directorate of Statistics, Indian Council of Forestry Research and Education (ICFRE) and State of Forest Report 2001 published by Forest Survey of India contains data mostly for the latest year- statewise only.

Table 5.1

This table presents data on Forest Cover estimates (First to Eighth cycle).

Table 5.2

This table presents data on Area under forest by type of forest with respect to total geographical area, it has also data on actual forest cover by density classes such as dense forest, open forest, man grove, scrub, Non-forest. .

Table 5.3

This table presents data on recorded forest area and legal status. The legal status has been categorised as "reserved", "protected" and "un-classed". Reserved forest is one which is permanently dedicated either to the production of timber or other forest produce and in which right of grazing and cultivation is seldom allowed. In protected forests these rights are allowed subject to a few mild restrictions. Unclassed forests occur mostly in Madhya Pradesh, Assam,

Bihar and Maharashtra and consists largely of inaccessible forest or unoccupied waste.

Table 5.4

This table presents data on Estimates of Wastelands in India, comprising Non-forest Degraded Area and Forest Degraded Area. It also includes Estimates of Non-Forests Wastelands in India comprising saline and Alkaline Lands, Wind Eroded Area and Water Eroded Area.

Table 5.5

Population of Tigers in Tiger Reserves has been presented in this table.

Table 5.6

In this table, data on forest products such as Timber, Poles,

Fuelwood, Bamboo, Resins, Gums, Canes etc. has been presented for the year 1998-99 and 1999-00

Table 5.7

This table provides data on revenue from and expenditure on Forests.

Table 5.8

This table gives statewise data on protected areas viz., number of protected areas, total area of protected areas and forest area component of the protected areas.

Table 5.9

This table shows the figures relating to physical and financial progress of afforestation in Seventh Plan 1985-90 and yearly data for 1990-91 to 1998-99. Data on forest land diverted to non-forest use have also been presented here.

Table 5.1 - FOREST COVER ESTIMATES

(Sq. Kms.)

Cycle	Year	Satellite and Sensor	Data Period	Forest Cover
1	2	3	4	5
First	1987	Landsat-Mss	1981-83	640819

**SERICULTURE**

---

# CHAPTER 6

## SERICULTURE

**D**ata in this section is restricted to the production of Raw Silk, Silk Yarn, Export and Import statistics and Prices of Sericulturral commodities collected by the Central Silk Board, with the co-operation of sericulture Departments in the States and from DGCIS, Kolkata. Raw silk is of two kinds, viz' Mulberry and Non- Mulberry.

The distinction arises from the rearing of silk worms either upon mulberry leaves or on other plants. The different types of Non-Mulberry silk and Spun silk and Noil yarn are defined as follows.

**Tasar silk:** - It is silk reeled from cocoons of silk worms belonging to saturnidae family, which are fed on leaves of oak, asan and arijan trees.

**Eri silk :** - It is spun from cocoons of silk worms belonging to saturnidae family, which are fed on castor leaves.

**Muga silk :** - It is produced only in Assam from cocoons of silk worms belonging to saturnidae family, which are fed on leaves of Som and Soalu leaves. It has a rich golden colour.

**Spun silk yarn:** - Yarn composed of silk filaments of lengths ranging from 1 to 8 inches produced by bleaching, dressing and spinning the silk waste which is the by-product of the raw silk reeling industry.

Noil yarn : - It is short staple residue obtained during dressing operations in the spinning from silk waste. It is a by-product of spun silk industry. This can be spun into noil yarn of coarse counts.

Table 6.1 - Details of production of raw silk and silk yarn are indicated . India is the second largest silk producing country in the world after China. India is the only country producing all four varieties of raw silk viz., Mulberry, Tasar, Eri & Muga. The major mulberry raw silk producing states in India are Karnataka( 55.09 %)), Andhra Pradesh ( 30.1%) West Bengal(8.9%), Tamil Nadu ( 4.1 %) & Jammu & Kashmir(0.5 %). In case of Non-mulberry, major

Tasar raw silk producing states are Jharkhand(38.6 %), Chattisgarh(37.8%), West Bengal (9.2 %) and Orissa (7.6%). Major Eri raw silk producing states are Assam(38.7%) Manipur (31.5 %) and Meghalaya(24.3 %), The major Muga raw silk producing state is Assam(96%). India has produced

1214 tons of raw silk during 1950 - 51% which increased to 17347 tons during 2001-02 .

Table 6.2 - India exported silk goods and earned foreign exchange of Rs. 2235.38 Crore(469.98 Million US\$) during 2001-02 which was only 0.53 Crore ( 1.11 Million US\$) during the year 1950-51.

India is importing raw silk from different countries to meet its domestic requirements. It has imported 527 tons during 1950 - 51 which increased to 6797 tons during 2001 - 2002. The availability of raw silk during 2001 - 02 is around 24144 tons. There are about 2.58 Lakh Handlooms and 29 Thousand Powerlooms working in India which has generated about 4055 Lakh Sq.mtrs of silk fabrics(estimated), during 2001 - 02. There are 14 Spun Silk Mills in India which has produced around 588 tons of spun silk yarn and 262 tons of noil yarn during 2001 - 02 (estimated).

# CHAPTER 7

## IRRIGATION

Statistics of area irrigated from different sources and total area of crops irrigated are presented under this section.

Table 7.1

This table presents data regarding total area irrigated by different sources which represents net irrigated area. If two or more crops on a given piece of land are irrigated in the same year from the same source, the area is counted only once.

Table 7.2

This table provides data for total irrigated area under various crops which represents gross irrigated area and includes area irrigated under more than one crop during the same year. Area irrigated more than once in a harvest season is counted only once.

## IRRIGATED AREA

## GROSS IRRIGATED AREAS FOODGRAIN CROPS

**MINING**

---

# CHAPTER 8

## MINING

The activity of mining and quarrying covers underground and surface mines, quarries and wells and includes extraction of minerals and also all the supplemental activities such as dressing and beneficiation of ores, crushing, screening, washing, cleaning, grading, milling floatation, melting, floatation, melting, pelletising, topping and other preparations carried out at the mine site which are needed to render the material marketable.

This section presents data on quantity, value and Index Numbers of Mineral Production in India, which covers the entire production in the mining and quarrying sector except those minerals which are declared as prescribed substances under the Atomic Energy Act, 1962.

The primary sources of the data on production of minerals other than solid and fossil fuels, atomic minerals and minor minerals are the statutory returns submitted by mine owners to the Indian Bureau of Mines (IBM) under provisions of the Mineral Conservation and Development Rules, 1988. IBM obtains data on coal and lignite from the Office of the Coal Controller, Calcutta and that on petroleum and natural gas from the Ministry of Petroleum & Natural Gas, New Delhi. Statistics relating to "minor minerals" are collected from

State Governments.

Production statistics of natural gas and petroleum (crude) are shown separately for off-shore deposits.

Table 8.1

This table contains mineral-wise data on number of reporting mines in India by the categories such as "fuel," "metallic" and "non-metallic" minerals.

Table 8.2

This table contains mineral-wise data regarding quantity and value of mineral production in India, by categories such as

fuels, metallic and non-metallic minerals.

The Index of Mineral Production revised from the earlier series 1980-81=100 to the base 1993-94=100 covers all the minerals in the mining and quarrying sector excepting, atomic minerals. For the first time, minor minerals are represented in the index of mineral production. The index includes 67 items and these have been classified according to the National Industrial Classification (NIC). In preparing the weighing diagram for the index in question, Gross Value Added has been taken into account instead of the Net Value Added which was employed for the index released previously.

## VALUE OF MINERAL PRODUCTION

## INDEX OF MINERAL PRODUCTION

(BASE:1993-94=100)

**INDUSTRY**

---

# CHAPTER 9

## INDUSTRY

This section deals with the following items:

- (a) Annual Survey of industries-Factory sector,
- (b) Production of cotton yarn,
- (c) Production of cotton cloth,
- (d) Production of man-made fibre fabrics,
- (e) Production of certain selected industries and
- (f) Index numbers of industrial production.

Table 9.1 and 9.2

These two tables present data regarding Annual Survey of Industries(ASI), the scope and coverage of which are described below:

The ASI replaced both the Census of Manufacturing Industries (CMI) and the Sample Survey of Manufacturing Industries (SSMI) with effect from the survey year, 1959. The survey is conducted under the statutory provisions of "Collection of Statistics Act, 1953" and the rules framed there-under in 1959, except in Jammu and Kashmir where it is conducted under the State Collection of Statistics Act, 1961 and the Rules framed there-under in 1964. These tables give information on important characteristics of manufacturing industries from 1998-99 to 1999-00 at all-India (all Industries) and for 1999-00 (factory wise), Statewise and industry group-wise.

The ASI extends to the entire country except the States of Arunachal Pradesh, Mizoram, Nagaland, Sikkim and Union Territory of Lakshadweep. It covers all factories registered under section 2 m(i) and 2 m(ii) of the Factories Act of 1948, which respectively refer to the factories employing 10 or more workers and using power and those employing 20 or more workers but not using power on any day of the preceding 12 months. The survey also covers bidi and cigar manufacturing establishments registered under Bidi and Cigar Workers (Condition of Employment) Act, 1966 and employing 10 or more workers using power and 20 or more workers not using power. All the electricity undertakings engaged in the generation, transmission and distribution of electricity registered with the Central Electricity Authority are covered under ASI irrespective of their employment size. Certain services and activities like cold storage, water supply, repair of motor vehicles and other consumer durables like watches etc, are covered under the Survey.

Defence establishments, oil storage and distribution depots, restaurants, hotels, cafes and computer services and also the technical training institutes are excluded from the purview of the Survey. Since 1966 onwards ASI relates to the accounting year of the factories on any day between 1st April to 31st March of the next year. The Annual Survey of Industries upto 1965 related to the calendar year with the exception of sugar, cotton ginning and pressing factories and electrical undertakings for which the reference periods were respectively the year ending 30th June, 31st August and 31st March respectively. Reference year is accounting year of the factory ending on 31st March.

Definitions and concepts of some of the terms used in these tables are mentioned below:

**Fixed Capital:** represents the depreciated value of fixed assets owned by the factory as on the closing date of the accounting year. Fixed assets are those which have a normal productive life of more than one year. Fixed capital covers all types of assets, new or used or own constructed, deployed for production, transportation, living or recreational facilities, hospitals, schools, etc. for factory personnel. It includes the fixed assets of the head office allocable to the factory and also the full value of assets taken on hire-purchase basis. (whether fully paid or not) excluding interest element. It

excludes intangible assets and assets solely used for post manufacturing activities such as sale, storage, distribution etc.

**Physical Working Capital:** is defined to include all physical inventories owned, held or controlled by factories as on closing date of the accounting year such as the materials, fuels & lubricants, stores etc. that enter into products manufactured by the factory itself or supplied by the factory to others for processing. Physical working capital also includes the stock of the materials, fuels and stores etc. purchased expressly for resale, semi-finished goods and work in progress on account of others and goods made by factories which are ready for sale at the end of accounting year. However, it does not include the stock of the materials, fuels, stores etc. supplied by others, to the factory for processing, finished goods, goods processed by others from raw materials supplied by the factory and held by them or included and finished goods processed by the factory from raw material supplied by others are excluded.

**Working Capital:** is the sum total of the physical working capital as already defined above and the cash deposits in hand and at bank and the net balance of amounts receivable over amounts payable at the end of the accounting year. Working capital, however, excludes unused overdraft facility, fixed deposits irrespective of duration, advances for acquisition of fixed assets, loans and advances by proprietors and partners irrespective of their purpose and duration, long term loans including interest thereon and investments.

**Productive Capital :** is the total of fixed capital and working capital as defined above.

**Invested Capital:** is the total of fixed capital and physical working capital as defined above.

**Depreciation:** is consumption of fixed capital due to wear and tear and obsolescences during the accounting year and is taken as provided by the factory owner or is estimated on the basis of cost of installation and working life of the fixed assets.

**Workers :** are defined to include all persons employed directly or through any agency whether for wages or not

and engaged in any manufacturing process or in cleaning any part of the machinery or premise used for manufacturing process or in any other kind of work incidental to or connected with the manufacturing process or the subject of the manufacturing process. Labour engaged in the repair and maintenance or production of fixed assets for factories own use or labour employed for generating electricity or producing coal, gas are included. However, persons holding positions of supervision or management, or employed in administrative office, store keeping section and welfare section, sales department as also those engaged in the purchase of raw materials etc. and in production of the fixed assets for the factory and watch and ward staff, are excluded."

**Total Persons Engaged:** relates to all persons engaged by the factory whether for wages or not, in work connected directly or indirectly with the manufacturing process and include all administrative, technical, clerical staff as also labour engaged in production of capital assets for factory's own use. This is inclusive of persons holding supervisory or managerial positions or engaged in administrative office, store keeping section and welfare section, sales department as also those engaged in the purchase of raw materials etc. and the production of fixed assets for the factory and watch and ward staff. It also includes all working proprietors and their family members who are actively engaged in the work of the factory even without any pay and the unpaid members of the co-operative societies who worked in or for the factory in any direct and productive capacity.

The number of workers or employees is an average number, obtained by dividing mandays worked defined later by the number of days the factory had worked during the reference year. In case of factories where only repair, maintenance or construction activities are carried, the average is calculated by dividing the mandays worked by the number of days, repair and maintenance/constructions work was carried on.

**Mandays:** represents the total number of mandays worked and not mandays paid for by the factory during the accounting year. It is obtained by summing-up the number of persons of specified categories attending in each shift over all the shifts worked on all days (working and non-working).

**Wages :** are defined to include all remunerations capable of

being expressed in monetary terms and also payable more or less regularly in each pay period to workers, defined above as compensation for work done during the accounting year. It includes a) direct wages and salary (ie. basic wages/salaries, payment of overtime, dearness, compensatory, house rents and other allowances), (b) remuneration for period not worked (i.e. basic wages, salaries and allowances payable for leave period, paid holiday, lay-off payments and compensation for unemployment, if not paid from sources other than employers), (c) bonuses and ex-gratia payments paid both at regular and at less frequent intervals (ie. incentives bonuses, good attendance bonuses, productive bonuses, profit sharing bonuses, festival or year end bonuses etc.). It excludes lay-off payments which are made from trust or other social funds set up expressly for this purpose i.e. payments not made by the employer. It also excludes imputed value of the benefits in kind, employer's contribution to the old-age benefits and other social security charges, direct expenditure on maternity benefits and crèches and other group benefits. Traveling and other expenditure incurred for the business purposes and re-imbursed by the employer are excluded. The wages are expressed in terms of gross value i.e. before deduction for fines, damages, taxes, provident funds, employee's state insurance contribution etc.

**Total Emoluments:** are defined in the same way as wages defined above but paid to all employees plus plus imputed value of benefits in kind i.e. the net cost to the employer on those goods and services provided to employees free of charge or at markedly reduced cost which are clearly and primarily of benefits to the employees as consumers.

**Contribution to Provident and Other Funds:** includes old age benefits like provident fund, pension, gratuity etc. and employer's contribution towards other social security charges such as employee's state insurance, compensation for work injuries, occupational diseases, provident fund linked insurance, retrenchment and lay-off benefits.

Workmen and staff welfare expenses include group benefits like direct expenditure on maternity, crèches, canteen facilities; educational, cultural and recreational facilities and grants to trade unions, co-operative stores etc. meant for employees.

**Old Age Benefits:** relate to employer's contribution to old age benefits like provident fund, pension, gratuity etc.

**Social Security Charges:** include employer's contribution towards other social security charges such as employee's state insurance, compensation for work injuries, occupational diseases, maternity benefits, retrenchment and lay-off benefits etc.

**Other benefits:** consist of direct expenditure on maternity, crèches, canteen facilities, educational, cultural and recreational facilities and grant to trade unions, co-operative stores etc., meant for employees.

**Fuels Consumed:** represent total purchase value of all items of fuels, lubricants, electricity, water etc. consumed by the factory during the accounting year including gasoline and other fuels for vehicles except those which directly enter into products as materials consumed. It excludes that part of fuels which is produced and consumed by the factory in manufacture i.e., all intermediate products and also fuels consumed by employees as part of amenities. It includes quantities acquired and consumed from allied concerns, their book value being taken as their purchase value and also the quantities consumed in production of machinery or other capital items for factory's own use.

**Materials Consumed:** represents the total delivered value of all items of raw materials, components, chemicals, packing materials and stores which actually entered into the production process of the factory during the accounting year. It also includes the cost of all materials used in the production of fixed assets including construction work for factory's own use. It, however, excludes all intermediate products consumed during the accounting year (Intermediate products in the above context mean all those products which are produced by the factory but are subject to further manufacturing process).

**Total Input:** comprises total value of fuels, materials consumed as defined above as well as expenditures such as

- (a) cost of contract and commission work done by others on materials supplied by the factory

- (b) cost of materials consumed for repair and maintenance of factory's fixed assets including cost of repairs and maintenance work done by others to the factory's fixed assets;

- (c) inward freight and transport charges, rates and taxes excluding income taxes; postage; telephones and telex expenses; insurance charges; banking charges; and cost of printing and stationary etc.

**Products:** Include the ex-factory value (i.e. exclusive of taxes, duties etc. on sale and inclusive of subsidies etc., if any) of all products and by-products excluding intermediate products that have been completed during the accounting year for sale whether actually sold during the accounting year or not. Also include fixed assets produced by the factory for its use. It also includes the net value of change in the stock of semi-finished goods representing the excess of change in the stock of semi-finished goods at the end of accounting year that at the beginning of the year.

**Semi-Finished Goods:** refer to the imputed value of all materials which have been partially processed by the factory but which are not usually sold without further processing. It includes the work in progress on account of others, but excludes the value of semi-finished fixed assets produced for factory's own use.

**Gross Output:** defined to include the ex-factory value of products and by-products manufactured (as defined above) during the accounting year. It also includes the receipt for non-industrial services rendered to others, the receipt for work done for others on materials supplied by them, value of electricity sold and net balance of goods sold in the same condition as purchased. The term Gross output, value of output and total output have been used in the text interchangeably to mean the same thing.

**Net Value Added:** is the increment to the value of goods and services that is contributed by the factory and is obtained by deducting the value of total inputs and depreciations from value of output.

**Rent Paid;** represents the amount of royalty paid in the nature of rent for the use of the fixed assets in the factory.

**Interest Paid:** includes all interest paid on factory account on loans, whether short term or long term, irrespective of duration and the nature of agencies from which the loan was taken. Interest paid to partners and proprietors on capital or loan are excluded.

**Net Fixed Capital Formation:** represents the excess of net fixed capital at the end of accounting year over that at the beginning of the year.

**Gross Fixed Capital Formation:** is obtained by adding depreciation to net fixed capital formation as mentioned above.

**Table 9.3**

Presents data on Mill Production of Cotton Yarn by weight state wise.

**Table 9.4**

Presents cotton cloth production data by length/area distinguishing it according to the category of cloth namely coarse, medium, fine, etc. The data regarding total cloth produced by the decentralised sector of the cotton textile industry have also been shown in this table. Collection of category wise details of cotton cloths is discontinued from 1996-97.

**Table 9.5**

Presents data regarding man-made fiber fabrics produced by power looms and handlooms and the mill sector. Man-made fiber fabrics comprise art silk, synthetic fabrics and staple fiber fabrics."

**Table 9.6**

This table presents data regarding production of selected industries in India. The data are based on the monthly data obtained from Department of Industrial Development except in case of following items for which data is received from different sources:-

Vanaspti & other Edible Oils	Dte. of Vanaspati, D/Sugar & Edible Oils & Fats, M/Food & Consumer Affairs.
Tea	Tea Board, Ministry of Commerce.
Coffee	Coffee Board, Ministry of Commerce.
Salt	Office of the Salt Commissioner, Ministry of Commerce.
Sugar	Directorate of Sugar, Ministry of Food & Consumer affairs.
Cotton Textile/ Machinery	Office of the Textile Commissioner," Ministry of Textiles.
Jute Textile/Jute Mill Machinery.	Office of Jute Commissioner, Ministry of Textile."
Iron and Steel	Office of the Development Commissioner for Iron and Steel, Ministry of Steel .
Petroleum Refinery	Ministry of Petroleum and Natural Gas Products
Small Scale Sector	O/o Development Commissioner, SSI Ministry of Industry.
Railway Coaches/ Wagon/Locomotives	Railway Board, Ministry of Railways
Electricity	Central Electricity Authority. Ministry of Power.
Mineral Production	Indian Bureau of Mines, Ministry of Mines."
Coal	Office of the Coal Controller, Ministry of Coal."

This table has been slightly modified to consider all the items compiled by Central Statistical Organisation for the years 1993-94 onwards. For data on earlier years, previous issues of Statistical Abstracts may be referred to.

**Table 9.7**

This table presents the index numbers of industrial production with base 1993-94=100. The first index called the Interim Index of Industrial Production with 1946 as the base, covered 35 items. It was revised to base year 1951, increasing the number of items to 88 and was published in October, 1955. This was again revised and published in July 1962 after shifting the base to 1956 and covering 201 items. The index was subsequently revised to base 1960=100. The monthly index of this series was based on 312 items and the annual index was based on 436 items. These index numbers were published in July-August, 1967 (Supplement) of Monthly Statistics of Production of Selected Industries. This index has been further revised to base 1970=100. These index numbers have been published in March 1975, issue of Monthly Statistics of Production of Selected Industries. This index has been again revised with 1980-81 base. This has been released to the press in February 1987 and published in July 1987 issue of Monthly Abstract of Statistics (MAS). Again the Index has been revised with 1993-94 base was released for the first time May, 1998 and published in MAS May-June 1998 issue.

The index is a simple weighted arithmetic mean of production relatives, the weights being proportional to

gross value of output as available from ASI-1993-94 factory sector. At the industry indicator levels, the weights were allocated in proportion to their gross value of output. The index is calculated by the formula:

$$I = \frac{\sum RiWi}{\sum Wi}$$

Where I is the index, Ri is the production relative for the item 'i' for the month in question and with weight allotted to it. The index has been revised from time to time to reflect adequately the industrial growth by shifting the comparison base to a recent period by covering larger number of items and industries and by improving, as far as practicable, the technique of construction.

The table has been presented to include only the items of one and two digit codes of Industries, as the indices for the detailed three and four digit items have been stopped to be compiled by Central Statistical Organisation.

- Note: 1. Statewise break up for decentralised sector is not available  
 2. All India figures from 1990-91 onwards are in million sq.metres and statewise figures are in '000 sq.meter.  
 3. Mill sector production excludes exclusive weaving units.  
 4. Category wise data on production of cotton cloth is not called for in the revised return from the industry since 1996-97.  
 5. The above table shows only those states/UT's as have produced Cotton Cloth (Mill Cloth).

(TONNE)

## PRODUCTION OF COTTON CLOTH

('Mn. SQ. METRE)

**POWER**

# CHAPTER 10

## POWER

Figures presented in this section relate to installed plant capacity, generation, consumption in power station auxiliaries, per capita consumption and sales of electricity by public utility electric supply undertakings, whether owned by Government, local authorities, or companies. Ordnance factories and Railway power stations with the sole exception of Chola Power Station are excluded. Mumbai is inter-connected with the Tata Power System and the Renukoot Power House (U.P.) is inter-connected with U.P. Grid. Data given in this section are compiled by the DMLF Division of the Central Electricity Authority, Department of Power, Ministry of Energy and are published in their annual publication, "Public Electricity Supply-All India Statistics-General Review".

Table 10.1

This table presents statewise figures of total installed capacity, electricity generated, electricity used in power station auxiliaries and per capita consumption of electricity. The figures for installed plant capacity and electricity generated do not include data relating to non-utilities such as self generating industries and railways. Figures of electricity generated in a States do not include the power purchased from other States. Data on electricity generated by the Damodar Valley Corporation and the Central Government Projects have been shown separately.

Table 10.2

The statewise data on electricity sold to ultimate consumers by public electricity undertakings are presented in this table by categories of consumers viz. domestic, commercial, industrial power, public lighting, traction, agricultural, public water works sewage pumping and miscellaneous.

Table 10.3

In this table, data are presented for total number of towns/ villages electrified alongwith the percentage electrified by States. The data are compiled by the DPED Division of the Central Electricity Authority. Agencies helping in compilation of data are State Electricity Boards and Electricity Departments of various States and Union Territories and Private Licenses.

**Table 10.1-ELECTRICITY-INSTALLED CAPACITY, GENERATION AND CONSUMPTION

Note: Generation of jointly owned projects have been shown divided between the partner States as per their theoretical shares.

(1) Relates to sales to ultimate consumers.

(2) Relates to utility and non-utilities.

\$:Includes DVCs sale to ultimate consumers in Bihar & West Bengal area.

(A):Include Diesel & wind also.

(++) Estimated. (1) As per 1991 Census

(2) As on 31.03.2000

(3) As on 31.03.2001.

(\*) Rest of villages not feasible for electrification.

(\$) 42 Forest Villages not electrified.

(a) Since the states have been re-organised, the population group-wise separate figures are not available.

(#) 329 villages declared non-feasible for electrification.

\*\* These figures are exclusive of the corresponding figures of the states viz. Chattishgarh and Uttaranchal carved out after 1991 census.

# CHAPTER 11

## Banks

The tables in this section present a consolidated picture of progress of banking in India, showing liabilities and assets of various categories of banks as classified below:

- (i) Reserve Bank of India.
- (ii) Scheduled Commercial Banks -
  - (a) State Bank of India.
  - (b) Other Indian Banks.
  - (c) Foreign Banks.
- (iii) Non-Scheduled Indian Commercial Banks.
- (iv) Indian Co-operative Banks.

Besides the above information, tables showing (i) the total number and amount of cheques cleared, (ii) percentage of cash balances to deposit, (iii) liabilities of several classes of banks eg. liabilities and assets of Industrial Finance Corporation of India, State Financial Corporation, Industrial Development Bank of India and Industrial Credit and Investment Corporation of India, have also been included.

**Table 11.1**

The table provides data on liabilities and assets relating to the Banking Department of the Reserve Bank of India.

Table 11.2

This table provides data on liabilities and assets of various classes of banks, which are described below :

A. Scheduled Commercial Banks: The banks, which carry on business of banking in India and which are included in the second schedule to the Reserve Bank of India Act, 1934 are known as Scheduled Banks.

These include the State Bank of India, other Indian Banks and Foreign Banks.

- (i) State Bank of India: The State Bank of India was formed in July, 1955 after the nationalisation of the Imperial Bank of India. Figures in this table relate to the business of the Bank in India and abroad.
- (ii) Other Indian Banks: Indian banks are those who have their registered offices in India. These include data for Private Sector Banks, Associates of State Bank of India, 20 nationalised and Regional Rural Banks. The figures relate to the business both in India and abroad.
- (iii) Foreign Banks: Foreign banks are those who have their registered offices outside India. The data relate to their business in the Indian Union.

Table 11.3

The table shows the number and amount of cheques cleared at each principal clearing centres managed by the Reserve Bank of India and other centres comprising clearing houses managed by agencies other than Reserve bank of India eg. State Bank of India, subsidiaries of the State Bank and Sangli Bank. The management of the clearing houses at Bangalore, New Delhi, Nagpur, Patna, Hyderabad, Trivandrum, Jaipur and Gauhati was taken over by the Reserve Bank of India in October 1953, August 1956, March 1957, January 1969, May 1969, January 1983, November 1984 and January 1986 respectively.

Table 11.4

This table gives data on cash deposit ratio which represents percentage of cash in hand and balances with banks to total deposits of different classes of banks.

Tables 11.5 to 11.8

Data provided in these tables relate to the working of the Industrial Finance Corporation of India, the State Financial Corporations, the Industrial Development Bank of India and the Industrial Credit and Investment Corporation of India respectively and furnish data on the liabilities and the assets of the same.

# CHAPTER 12

## CO-OPERATIVE SOCIETIES

This section presents data regarding the number, membership and financial position of various classes of co-operative societies, thus depicting in abstract form the working of co-operative societies in India.

Table 12.1

This table provides data on number and membership of all types of co-operative societies.

Tables 12.2 - 12.8

These tables present data regarding the number, membership and financial position respectively of the following classes of co-operative banks and societies:-

- (i) State Co-operative Banks.
- (ii) Central Co-operative Banks.
- (iii) Primary Credit Societies (Agricultural and Non-agricultural).
- (iv) Grain Banks.
- (v) SCARDBS.
- (vi) PCARDBS
- (vii) Primary Non Credit Societies.

The Data relate to the years ending June.

Table 12.1 - NUMBER AND MEMBERSHIP-ALL TYPES

Year/State/ Union Territory	No. of societies			Membership ('000 no.)

# CHAPTER 13

## Joint Stock Companies

This section contains statistics relating to joint stock companies which are based on returns received from Registrars of Joint Stock Companies.

### Tables 13.1 to 13.3

These tables present data regarding joint stock companies at work, newly registered and ceased to work (both liquidated and struck off).

Statistics are given for the number and paid-up capital of the companies, liability of which is limited by shares only. Authorised capital is given in the case of newly registered companies (Table 13.2). Companies have also been classified according to the industrial activity. The number of foreign companies, which carry on business in India have been included in Table 13.1. The figures relate to companies incorporated elsewhere than in India, the majority of which are with sterling capital. For the data relating to previous years, earlier issues of Statistical Abstract may be referred. The tables 13.1 and 13.3 have been modified for want of statewise and industry-wise figures.

# CHAPTER 14

## Insurance

Figures in this section refer to the insurance business of insurers who transacted business under the Insurance Act, 1938. The Postal Life Insurance Fund (Tables 14.4 and 14.5) is, however, exempted from the operation of the Act. From September 1, 1956, life insurance was nationalised and the then existing business of Indian insurers, and Provident Societies and Indian business of foreign insurers were vested in the Life Insurance Corporation of India.

Table 14.1

This table gives the revenue account of the insurance business in India. Figures are for the financial year ending 31st March except in the case of the year 1961, as L.I.C. have changed over to financial year as their accounting period, from 1st April, 1963.

Table 14.2

This table gives the new life insurance business by Indian Insurers during the year and total business in force at the end of the year.

Table 14.3

This table shows the summary of the balance-sheet of life and other classes of business of the Life Insurance Corporation of India.

Tables 14.4 and 14.5

The postal insurance data were available separately for whole life and endowment policies upto the year 1963-64. As the accounts for the two have been amalgamated and are not being maintained separately from April 1964, consolidated data for whole life and endowment postal insurance, are shown in these tables from 1964-65 onwards.

Table 14.6

Figures for other insurers are for calendar year ending 31st December while those for Life Insurance Corporation of India are for financial year ending 31st March.

Table on General Insurance business of Non-Indian Insurers has been discontinued as the data for the table are not available after Jan. 1, 1973, when general insurance was nationalised, and the undertakings of foreign insurers were transferred to and vested in the Indian Insurance Companies.

**TRADE**

---

# CHAPTER 15

## TRADE

The figures represent trade with foreign countries both on private and government accounts, registered at Indian sea-ports, airports and land custom stations. Statistics are recorded on the basis of the general system of registration under which the goods arriving from abroad are first included under imports and when they are shipped again they are included under re-exports. With effect from April, 1963 trade arising in Goa, Daman & Diu, Andaman & Nicobar Islands and Lakshadweep is included. In the case of Nepal airborne trade alone was covered upto March, 1964, subsequently it covers trade both by land and air. The sources of foreign trade statistics are customs and central excise authorities. These are compiled by the Directorate General of Commercial Intelligence & Statistics from the bills of entry and shipping bills.

From April 1948 total value of foreign trade of India by all routes (i.e sea, air and land) has been taken into account for the purpose of calculating the balance of trade. All foreign trade transactions in gold, currency notes and coins are included under treasure. Balance of trade in treasure refers to gold and silver upto December 1956 and thereafter to gold only. Trade in silver is included under merchandise after December 1956.

The data for Imports, Exports and Re-exports given in this table are according to the Indian Trade Classification Revision-2 adopted from April, 1977 and followed upto March, 1987. From April 1987, a new system of commodity

classification known as Indian Trade Classification (based on Harmonised Commodity description and coding system) has been adopted. Data for Imports, exports and re-exports is given by section and chapters.

#### Tables 15.3 and 15.7

Import figures generally show the trade as declared by importers in the bills of entry (applications for clearance) and as checked by custom officials.

Goods entered for storage in bonded warehouses and afterwards exported therefrom are included under 'imports and re-exports'. Transshipment trade is not recognised for the purposes of Indian trade returns and is, thus, not included here. Direct transit trade is also excluded while indirect transit trade is included as imports first and then as re-exports.

Imports of baggage of passengers are not included since November, 1964. All dutiable articles imported from foreign countries by parcel or letter post are included. Trade in defence store is omitted with effect from October 1979. The diplomatic goods, Gold and current coins & notes, ships stores are excluded.

#### Tables 15.4, 15.5 and 15.8

Export figures represent actual shipments as checked by the custom officials. The figures of exports relate to Indian merchandise alone and re-exports of foreign merchandise previously imported into India. Direct transit trade, transshipment trade, passenger's baggage, ship's stores, defence stores, transaction in treasures i.e. gold and current coins & notes, diplomatic goods are excluded.

All articles despatched to foreign countries by parcel or letter post are included since 1964-65. Transactions in silver (other than current coins) and in notes & coins not in circulation or withdrawn from circulation and indirect transit trade are also included.

#### Classification of Trade by Countries-Tables 15.3 and 15.4

Imports are classified with reference to the countries whence they were consigned to India and not with reference to the countries whence they were shipped direct to India. The country of consignment is defined as that from which the goods have come whether by land and sea or by sea only or by air, without interruption of transit save in the course of transshipment or transfer from one means of conveyance to another. Thus the countries where goods are consigned are not in all cases the countries of actual origin of goods since goods produced in one country may be purchased by

a firm in another country and thence despatched after an interval to India.

Exports are credited to the country of final destination as declared by exporters in the shipping bill whether that country possesses a sea-port or not. The country of final destination is defined as that to which goods exported from India are intended to pass whether by sea and land or by sea only or by air without interruption of transit, save in the course of transshipment or transfer from one means of conveyance to another.

The figures are those declared by importers and exporters in the bills of entry and shipping bills. The value of goods represents the wholesale cash price less trade discount for which goods (i) the like and quality are sold or are capable of being sold at the time and place of importation or exportation as the case may be without any abatement or deduction whatever, except that in the case of goods imported, of the amount of duties payable on the importation thereof, or (ii) where such price is not ascertainable the cost at which the goods of the like quality could be delivered at such place without any abatement or deduction except as aforesaid. Import valuation in practice corresponds to c.i.f. method. Export valuation is based on f.o.b inclusive of export duty and/or cess where leviable.

#### Table 15.6

This table gives data on the value of merchandise trade for the years 1990-91 onwards according to revised economic regions. The regions are as follows.

Region 01: East African Community (EAC)  
Kenya; Tanzania, United Republic of; Uganda.

Region 02: Organisation Commune Africaine El Malagache (OCAEM)

Benin (Dahomey); Cameroon, United Republic of; Central African Republic; Chad; Congo (People's Republic of Congo); Gabon; Ivory Coast; Malagasy Republic (Madagascar); Mauritania; Mauritius; Niger; Rwanda; Senegal; Togo; Burkina Faso (Upper Volta); Zaire, Republic of.

Region 03: Organisation of African Unity (OAU)

Angola; Botswana; Burundi; Canary Islands; Cape Verde Islands; Camoros, Eithiopia; Equatorial Guinea; French Southern and Antarctic Territories (TAAF); French Territory of the AFARS of ISSAS (Presently Djibouti); Gambia; Ghana;

Guinea; Guinea Bissau; Lesotho; Liberia; Malawi; Mali; Namibia (South West Africa); Nigeria; Mozambique; Reunion; Sao Thome & Principe; Seychelles; Sierra Leone; Somalia; St. Helena of Ascension; Swaziland; Democratic Saharwi Arab Republic and Zambia.

#### Region 04: Other African Countries (OAC)

Algeria; Egypt Arab Republic of; Libya; Morocco (including Tangier); (Rhodesia) Zimbabwe; South Africa; Sudan and Tunisia.

#### Region 05: North America

Canada; Greenland; St. Pierres and Miquelon; United States of America.

#### Region 06: South America

Argentina; Bolivia; Brazil; Chile; Columbia; Equador; Paraguay; Peru, Uruguay and Venezuela.

#### Region 07: Caribbean Common Market (CARICOM)

Antigua; Bahamas; Barbados; Belige; Dominica; Grenada; Guyana; Jamaica; Montserrat; St. Ritts-Nevis-Anguilla; St. Lucia; St. Vincent; Trinidad and Tobago.

#### Region 08: Central American Common Market (CACM)

Coasts Rica; El Salvador; Guatemala; Honduras; Nicaragua.

#### Region 09: Other Central American and Caribbean Countries (OCACC)

American Samoa; Bermuda; British Virgin Islands; Cayman Islands; Cuba; Dominican Republic; Falk Islands; Guadeloupe (Formely French West Indies); Haiti; Martinique; Mexico; Netherlands Antillies; Panama excluding Canal Zone (Panama Republic); Panama Canal Zone; Puerto Rico; Surinam; Turks and Caicos Islands and Virgin Islands of U.S.

#### Region 10: ESCAP Countries

Afghanistan; Australia; Bangladesh; Brunei; Burma; China, People's Republic of; Christmas Islands; Cooks Islands; Fiji Islands; Gilbert (Kiribati Republic) Islands; Hong Kong; Indonesia; Iran; Japan; Kampuchia Democratic Republic (Formerly Khemer); Korea, Republic of; Loas People's Democratic Republic, Malasia; Mayanmar; Mongolia; Nauru, Republic of; Nepal; New Zealand; Pakistan; Papua and New

Guinea; Philippines; Singapore; Solomon Islands; Sri Lanka; Thailand; Tonga; Tuvalu (formerly Ellice Island); Vietnam, Socialist Republic of; and Western Samoa.

#### Region 11: Economic Commission for West Asia, (ECFWA)

Bahrain Islands; Iraq; Jordon; Kuwait; Labanon; Neutral Zone; Oman; Qatar; Saudi Arabia, Syrian Arab Republic; United Arab Emirates (formerly Trucial States of Abu Dhabi, Dubai, Sherjah etc.); Yemen People's Democratic Republic of; Yemen Arab Republic.

#### Region 12: Other Asian and Oceanian countries and Antarctic and Arctic Region (OAOAAC)

China; Republic (formerly Formosa); Cocos Islands; French Guiana; French Polynesia (Oceania) Guam; Israel; Korea, Democratic Peoples' Republic; Macau; Maldive Islands; New Caledonea; New Hebrides; Niue Island; Norfolk Island; Pacific Islands (Trust Territory of); Pitcairn Islands; Portuguese Timor; Tokeleu Islands, and Wallis & Futuna Islands.

#### Region 13: European Common Market Countries (ECM)

Belgium; Denmark; France; Germany, Federal Republic of; Greece; Ireland; Italy; Luxemburge; Netherlands; United Kingdom; (w.e.f April 1987) & Spain and Portugal (w.e.f. April 1987).

#### Region 14: European Free Trade Area Countries (EFTA)

Austria; Faeroe Islands; Finland; Iceland; Norway; Sweden, and Switzerland.

#### Region 15: East European Countries (EAEC)

Bulgaria; Czechoslovakia; Hungary; Poland; Rumania, U.S.S.R. and Yugoslavia (w.e.f. April 1987).

#### Region 16: Other European Countries (OEC)

Albania; Andorra; Channel Islands; Cyprus; Gibraltar; Liechtenstein; Malta; Turkey Index Numbers of Quantum and Unit Value of Exports and Imports

#### Tables 15.9 and 15.10

Many significant changes took place in the pattern of Indian foreign trade since 1958 and particularly from 1980.

New commodities entered into the exports and many other items which were insignificant earlier gained importance. The commodity composition of imports, too, changed with the changing needs of the country. In view of changing pattern of foreign trade, the base period was further changed to 1978-79 from 1968-69 and the corresponding commodities basket was revised.

### Scope and coverage

In order to ensure adequate coverage of trade for the new series of index numbers, the number of items included in case of exports and imports has been increased to 738 and 623 respectively as against 489 and 511 in the old series. The coverage of revised commodity basket accounts for 85 per cent of the value of exports and imports for the year 1978-79.

### Method of Construction

As in the case of old series, the revised Index Numbers are of the fixed base type. The Unit Value (price) Index numbers are calculated according to the Paasche formula and the Quantum Index Numbers according to the Laspeyres formula; these are, however, not computed separately but are derived from the former indices i.e. Unit Value Index Numbers.

The method of calculation of Unit Value Indices briefly consists of comparing the trade in the current period with that valued at base period prices. Symbolically, the Unit Value Index Number is given by the formula:

$$p = \frac{\sum P_n q^n}{\sum P_0 q^n}$$

Where  $P_0$  and  $P_n$  denote the unit value of an article in the base period and the current period respectively and  $Q_n$  the quantity traded in the current periods.

As mentioned above, the Quantum Indices (Q) are derived from the unit value indices as follows:

$$Q = \frac{\sum P_n q^n}{\sum P_0 q^n}$$

where  $Q^n$  denotes the quantity in the base period.

### Adjustment for Incomplete Coverage

It is not possible in practice to include all the commodities entering in trade since information on quantities are lacking

for many miscellaneous items in the trade records. Such items cannot be included in the cross valuations and hence do not appear directly in the compilation of Index Numbers. Adjustments have, therefore, been made in the final Index Numbers to allow for incomplete coverage. These adjustments are based on the assumption that the price changes in the items not covered in a section are similar to those shown by the items included in the calculation for the section. The method of adjustments can be explained symbolically as below:

The Unit Value Index ( $P_i$ ) for the included items in the  $i$ th section is given by the formula:

$$p = \frac{\sum_i P_n q^n}{\sum_i P_0 q^n}$$

Where  $\sum_i$  = Summation over all included items in  $i$ th section.

The adjusted unit value index  $P_i$  for all the items of the  $i$ th section will be

$$p = \frac{\sum_i' P_n q^n}{\sum_i' P_0 q^n}$$

Where  $\sum$  = Summation over all items in the  $i$ th section. The adjusted General Index number  $P'$  will be

$$p = \frac{\sum_{i=0}^{\alpha} (\sum_i P_n q^n)}{\sum_{i=0}^{\alpha} (\sum_i P_0 q^n)}$$

While the aggregate  $\sum_i P_n Q_n$  is known, the aggregate  $\sum_i P_n Q_n$  is unknown and it cannot be computed directly. It is, therefore, estimated on the assumption that the price changes for the covered items and for all the items in a section are the same. In other words,  $P_i = P_i$  or

$$\frac{\sum_i' P_n q^n}{\sum_i' P_0 q^n} = P_i$$

$$\text{So } \sum_i' P_0 q^n = \frac{\sum_i' P_n q^n}{P_i}$$

$$\sum_i P_0 q^n = \frac{\text{Total value of all items in the section}}{\text{Unadjusted unit value Index for the section}}$$

The adjusted General Unit Value Index Number  $P'$  is obtained by substituting the above value of  $\Sigma P_0 q_0$  in equation (1).

Quantum Indices are similarly adjusted for incomplete coverage by using the adjusted Unit Value Index instead of the unadjusted Index occurring in the formula for deriving the Quantum Indices.

#### Linking of the old and revised series

The linking of the new series of index numbers  $I$  (new) with the old series  $I$  (old) would be possible by the application of the formula given below:

$$I(\text{old}) = \hat{K} I(\text{new})$$

$$\text{Where } \hat{K} = K = \frac{\Sigma I(\text{old})}{\Sigma I(\text{new})}$$

An empirical study has demonstrated that this formula gives more precise results than the other formulae meant for this purpose.

$$(i) I(\text{old}) = \hat{C} I(\text{new}) \text{ where } \hat{C} = \frac{I}{n} \sum_{i=1}^n \frac{I(\text{old})}{I(\text{new})}$$

and  $CI(\text{new})$   $n$  = number of years of data used.

$$(i) I(\text{old}) = a + b I(\text{new}) \text{ where } b = \frac{\text{Cov}[I(\text{old})(\text{new})]}{\text{Var}[I(\text{new})]} \text{ and}$$

$$a = I(\text{old}) - b I(\text{new})$$

#### Coastal Trade

##### Tables 15.11 and 15.12

Coasting trade statistics represent the inland trade registered at the ports in the States, that is, the trade between one State on one side and all other States on the other. The trade among ports within the same state has been stated as internal trade within the same maritime block.

The following Maritime Blocks each of which corresponds to a Maritime State or Union Territory have been adopted from April, 1957:

(1) West Bengal, (2) Orissa, (3) Andhra Pradesh, (4) Tamil

Nadu, (5) Kerala, (6) Karnataka, (7) Bombay, (8) Andaman and Nicobar Islands and (9) Lakshadweep.

Further, consequent on bifurcation of Bombay State into two corresponding maritime blocks (1) Maharashtra and (2) Gujarat are being shown from April, 1961. Pondicherry has been adopted as a maritime block with effect from the same date and Goa, from April, 1963. These are that 12 maritime blocks had in respect of each of which coastal trade is recorded from April, 1963.

In pursuance of Government orders with effect from April, 1964 coastal trade statistics are being compiled on import basis from daily trade returns received from the ports open to coastal trade. Export figures are being derived from import data, as imports into one port represents the exports from other ports.

#### Inland Trade

Table 15.13

Inland Trade Statistics represent the movement of assignments pertaining to 78 items by railways and on steamer service, from and into a State taken as a whole or a chief port or ports, the trade of which is registered separately from that of the state in which such port or ports may be situated. Movement of trade by other means (e.g. road, air, country boats etc.) is thus excluded from the scope of these statistics.

**Trade Block-** Prior to April, 1962 there were 29 Trade Blocks. The list has since been amplified with a view to taking into account the bifurcation of the erstwhile Bombay State into Gujarat and Maharashtra. It was further amplified in April, 1965 to provide for separate formation of Nagaland. For the purposes of accounts, and as from April, 1965, India is divided into 31 Trade Blocks, representing the States and Union Territories except Andhra Pradesh, Gujarat, Kerala, Tamil Nadu, Maharashtra, Karnataka and West Bengal which have been constituted into more than one Trade Block. The Reorganisation of the Punjab and Himachal Pradesh has been given effect from April, 1967. Chandigarh is shown as a separate Trade Block since April 1967. Further, a new trade block of Kandla was introduced in April, 1975 and three more trade blocks namely Meghalaya, Arunachal Pradesh and Mizoram were introduced in April, 1976. Thus number of trade blocks stood 38 in April, 1976.

**Method of Registration-** The figures from April, 1965 onwards represent actual exports from each trade block. According to arrangement in force, each of the railways and

the steamer companies registers such traffic as is despatched from stations on its line within a particular trade block to other trade blocks. Prior to April, 1965 these figures were recorded on imports' basis. In case of Tripura, however, there is no railway or steamer station or out-agency within the trade block, and special arrangements have been made to record the trade. The trade of this block is recorded by the following agencies:

- (1) in respect of trade via the Bangladesh Railway by certain land and customs stations on the Tripura Bangladesh border;
- (2) in respect of trade via Patharkandi station on the Assam-Tripura border, by the North East Frontier Railway.

**River borne trade-** The statistics upto the period ending August, 1965 cover only the trade carried by the River Steam Navigation Co. Ltd. between the trade blocks mentioned below.

- (1) Kolkata
- (2) Assam
- (3) West Bengal (excluding Kolkata)

No account is taken of (a) trade carried by other steamer owners or boat-owners between these trade blocks or (b)

river borne trade between other trade blocks.

For the purposes of registration, trade originating in a railway and transhipped, through booking arrangements, at a railway station to a steamer for conveyance to a river station, is treated as carried wholly by rail. The above company, however, suspended its steamer service from September, 1965. Thus the statistics relate only to rail-borne trade from September, 1965 to 1971-72, thereafter i.e. from 1972-73 the Central Inland Water Transport Corporation Ltd., Kolkata, are furnishing statistics in respect of river borne trade between the above mentioned blocks.

**Articles and Units of measurement-** The trade in certain staple articles only is recorded and the weight recorded is the net weight i.e., the gross weight entered in the invoices less certain fixed percentage which have been taken to represent the weight of packing etc. From 1978-79 the weight recorded is the Gross weight. Values are not recorded. Figure of oilseeds represent the trade in the following varieties: (1) castor, (2) cottonseed, (3) groundnut, (4) linseed, (5) rape and mustard, (6) til (jinjili). Cotton Piecegoods include both Indian and foreign. Jute raw includes both loose and pucca bales. Raw cotton figures do not make distinction between ginned and unginned. Period- Figures relate generally to the financial year April-March, but in the case of raw cotton figures relate to the year September-August.

- (1) Raw cotton figures relate to Cotton year ending August.  
(2) Total may not tally due to rounding off of the figures.

Note: Each of the three maritime states of Kerala, Tamil Nadu and Maharashtra is divided into three sub-trade blocks. The figures of the 3rd sub-trade block viz."other ports" for all these States are not shown in the breakup.Hence the sum of the breakup is slight lower than the yearly total.

# CHAPTER 16

## BALANCE OF PAYMENTS

The balance of payments is a systematic record of India's international economic transactions of residents with the rest of the world on account of merchandise, services, unrequited transfers and transfers of capital. Residents cover nationals as well as non-nationals residing in the country. Foreign students, tourists, foreign diplomatic officers and international institutions are not considered to be residents but diplomatic officers and armed forces of the country, stationed abroad, are treated as residents notwithstanding their physical location.

India's balance of payments statistics presented in this section are derived for the most part from Exchange Control Records and the basic data on most of the official transactions, not routed through the banking channels, are obtained from the Government agencies and the Reserve Bank of India.

Table 16.1

In this Table no. 16.1, format of presentation of Balance of Payments have been changed by R.B.I. from July, 1996. Revised series in the new format has been given from the year 1990-91 upto 1999-2000

## A. Current Account

Economic transactions that enter the current account are presented in two parts viz., i) Merchandise and ii) Invisibles. A surplus on current account leads to an acquisition of assets or repayment of debts previously contracted and a deficit involves withdrawal of previously accumulated assets or is met by borrowings.

1. **Merchandise** It comprises imports and exports of movable goods. Imports are inclusive of insurance and freight. Although these two elements come, strictly speaking, under the category of services, exports are shown f.o.b., by removing the estimated portion of freight and insurance from those exports that are booked on c.f./c.i.f. basis.

### 2. Invisibles

**Travel Credit** - This item represents foreign tourists' expenditure during their stay in India and on the debit side it covers exchange sold for private and official travel.

**Transportation and insurance** - Receipts cover estimated portion of freight and insurance from the exports and disbursements of foreign ships and airlines in Indian ports etc. Payments include operating expenses abroad of Indian steamship and airline companies and some freight and insurance payments

**Investment Income** - Receipts include interest earned on the investments of RBI and on holdings, of SDRs, and payments include interest and commitment charges on foreign loans, on purchases from the, IMF and those on cumulative allocation of SDRs.

**Govts., not included elsewhere** - The item includes receipts and payments on account of maintenance of embassies and diplomatic missions and offices' of international institutions.

**Miscellaneous**- This item covers, mainly, agency services, technicians and professional services, royalties, film rentals, etc.

**Transfer payments**- Official transfer receipts represent contra

entries for cash receipts and value of aid received in kind from foreign Governments and institutions and debits cover contributions to international organisations and official grants in cash or kind extended to foreign Governments. Since April 1964, receipt and payments of pensions on Govt. account are included under this item. Private transfers comprise all unilateral transfers such as migrants' transfers, repatriation of savings, remittances for family maintenance, contributions and donations to religious and charitable institutions etc. Receipts also include imports under P.I 480, Title II Programme Since April 1964, receipts and payments of pension and retirement benefits etc on private account are also covered under this head. Private transfer receipts also include the contra entry on account of Gold and Silver brought in by Indians returning from abroad. This treatment is effective from the inception of this scheme (i.e. 1992-93 onwards). Since 1996-97 it also includes contra entry for local withdrawals from NRE accounts and local redemptions of NRNRD accounts.

(ii) **Non-resident deposits:** Credits under this item include remittances received towards various nonresident deposit schemes viz., Foreign Currency Non-Resident Account (FCNRA) discontinued in various phases up to August, 1994, foreign Currency Non-Resident Deposits (Banks) (FCNRB) introduced in 28 May, 1993, Non Resident (External) rupee Account (NR(E)RA) (Since February, 1970), Non-resident Non-Repatriable Rupee Deposits (NRNRD) introduced in June, 1992, foreign Currency (Banks and Others) Deposits (FCBOD) (discontinued in July, 1993) and Foreign Currency Ordinary Non-repatriable deposits (FCON) (discontinued in May, 1994). Credits also include interest accrued and credited to these deposits accounts during the year. Debits denote redemption of these deposits.

(iii) **Others:** These include movement in balances of foreign central banks and international institutions like IBRD, IDA, ADB, IFC, IFAD etc. maintained with RBI as well as movement in balances held abroad in balances held abroad by the Embassies of Indian in London and Tokyo. This also include movements in technical credit granted to the erstwhile East European countries and their investments in

Government Treasury Bills and deposits with the Government.

4. **Rupee Debt Service:** Interest payments on and principal repayments on account of civilian and non-civilian debt in respect of Rupee Payment Area(RPA), are clubbed together and shown separately under this item. This is in line with the recommendation of the High Level Committee on Balances of Payments (Chairman: Dr. C. Rangarajan).

5. **Other capital:** This is a residual item and includes all capital transactions not included elsewhere. It particularly includes funds held abroad, advance receipts under deferred exports, India's subscription to International institution, quota payments to IMF, delayed export receipts, remittances towards recouping the losses of branches/subsidiaries etc.

**Reserves :** Movements in the reserves comprise changes in the foreign currency assets held by the RBI, Gold by the RBI and SDR balances held by the Govt. of India. These are recorded after excluding changes on account of valuation. This item does not include Reserve position with the IMF

**INDIAN RAILWAYS**

---

# CHAPTER 17

## INDIAN RAILWAY

This section includes tables providing statistics of passenger and goods traffic, revenue and expenditure and general working of Indian Railways. The statistics are collected by the Ministry of Railways from various Zonal Railways, Production Units, Metropolitan Transport Projects etc. Indian Railways are classified as Government and Non-Government Railways. However statistics pertaining to Non-Government Railways have been discontinued w.e.f. 1978-79.

The Government Railways are classified by Zones as mentioned below:

- |                         |                       |
|-------------------------|-----------------------|
| (i) Central,            | (ii) Eastern,         |
| (iii) Northern,         | (iv) North Eastern,   |
| (v) Northeast Frontier, | (vi) Southern,        |
| (vii) South Central,    | (viii) South Eastern, |
| (ix) Western.           |                       |

Besides above, the following 7 new Zones have also been set up

- |                               |                       |
|-------------------------------|-----------------------|
| (i) East Coast,               | (ii) East Central,    |
| (iii) North Central,          | (iv) North Western,   |
| (v) South Western,            | (vi) West Central and |
| (vii) Bilaspur(Railway Zone). |                       |

The Indian Railways are also classified by Gauges as Broad (1.676m.), Metre (1.000m) and Narrow (0.762m. & 0.610m.) according to the minimum distance between two rails in metres mentioned in brackets.

**Table 17.1**

This table provides the summary results of the general working of Indian Railways. The definitions of various terms used in this table are given below:

**Route Kilometres:** This represents the length of the railway routes open for traffic at the end of each year. In calculating the length of the route, double or more than double lines are counted only once.

**Gross Earnings and Working Expenses:** This represents total earnings and expenses of Railways in an accounting period irrespective of whether or not the earnings have been realised or expenses paid. Gross earnings include all earnings from passenger traffic, goods traffic, parcels, luggage and other miscellaneous sources of revenue, while working expenses include all expenses incurred for maintenance of structural works, supply of loco power, carriage and wagon stock, ferry steamers and harbours as well as the expenses of traffic departments, general electric service departments and other miscellaneous expenses.

**Train Kilometres:** This represents the kilometres run by trains carrying passengers or goods or both as well as the kilometres run by empty trains. No deduction is made for departmental trains. **Number of Passengers and Metric Tonnes carried:** The figures represent the number of passengers and weight in metric tonne of goods, originating on all Railways, treating passengers travelling or goods carried over two or more Railways as single journey.

**Passenger Kilometres and Net Tonne Kilometres:** These figures represent the real indices of the volume of passengers and goods traffic handled. These are arrived at by multiplying the total number of passengers carried and the total tonnage of goods carried by the respective number of kilometres, over which they are moved.

**Table 17.2**

This table provides data in respect of passengers, goods traffic carried and earnings of the Govt. and Non-Govt. Railways. Number of passengers carried and tonnage of goods carried, unlike in table 17.1, represents total number

of passengers and total tonnage of goods carried on individual Railways, treating passengers travelling and goods carried over two or more Railways as having performed two or more journeys.

**Table 17.3**

This table presents the Capital-at-Charge, earnings and expenditure positions separately of Government and Non-Government Railways.

**Table 17.4**

This table provides the results of the financial working of Government Railways, showing Capital-at-Charge, gross receipts, operating expenses, Depreciation Reserve Fund, net receipts etc.

**Table 17.5**

This table presents data relating to revenue, expenditure and the net gain or loss of the Railways for which Government is financially responsible. The revenue includes State Railways' gross receipts, subsidised companies, miscellaneous receipts, while the expenditure includes State Railways' working expenses, subsidy paid to companies, miscellaneous expenditure, dividend on loan capital and payment to general revenues in lieu of tax on passenger fare.

**Table 17.6**

This table provides details of gross earnings of Indian Railways from passenger and goods traffic.

**Table 17.7**

This table presents data regarding number of persons killed and injured due to accidents, failures of railway equipment and un-usual occurrences. The figures exclude the persons killed or injured in railway workshops etc. Besides, the figures are based on accident messages issued immediately after the occurrence of accidents etc., and do not take into account the deterioration in the health of affected persons (i.e. injuries culminating into fatalities) after hospitalisation etc. Casualties from causes unconnected with railway working, such as death of passengers in carriages or at stations from natural causes, are excluded.

# STATISTICAL ABSTRACT

---

# CHAPTER 18

## MOTOR VEHICLES

**M**otor Transport in India, is primarily the responsibility of the State Governments and U.T. Administrations. Taking into account the changes in the road transport technology, pattern of passenger and freight movements, development of the road network in the country and particularly the improved techniques in the motor vehicles management, the Motor Vehicles Act, 1939 was consolidated and amended by Parliament, which is now available by the name Motor Vehicles Act, 1988. The said Act empowers the Central Government to frame rules under certain provisions of the Act. This Act also empowers the State Govts. and Union Territory Administrations to frame the rules under the relevant provisions of the Act for regulating the motor vehicle transportation in India.

Table 18.1

The table presents the number of Motor Vehicles Registered in India as on 31st March. For 1950-51, it includes motor vehicles taxed only, while for other years, data is for motor vehicles taxed and tax exempted both.

Table 18.2

State revenue from Road Transport and Central revenue from Road Transport are given in this table. The Central revenue consists of import duty and excise duty on motor

vehicles and accessories, tyres and tubes and motor fuel. The State Revenue consists of motor vehicle taxes and fees levied, sales tax on motor spirits and lubricants taxes on passengers and goods carried. The sales tax on motor spirits are levied at varying rates under varying conditions in different States. In some cases, the levy on motor spirits made under the Central Sales Tax Act and in other cases, Special Motor Sales Tax Act. Taxes on passenger and goods carried by road or on inland waterways under entry 56 of List II of the Seventh Schedule the Constitution of India are levied in Andhra

Pradesh, Assam, Bihar, Gujarat, Kerala, Madhya Pradesh, Maharashtra, Karnataka, Orissa, Punjab, Rajasthan, West Bengal and Himachal Pradesh.

**Table 18.3**

Almost all the major States and UTs of India have nationalised public passenger transport bus service with a view to ensuring economy and efficient administration. The Nationalisation of road transport is mostly confined to the passenger traffic so far. This table deals with the working of State Transport Undertakings.

# CHAPTER 19

## ROADS

This section provides comprehensive data on different categories of Roads including National Highways, State highways, PWD Roads, Rural Roads constructed under Jawahar Rojgar Yojna (JRY) etc.

The information in this section is based on the data collected by Transport Research Wing (TRW), Ministry of Roads Transport and Highways on various categories of roads in the country, from as many as 360 agencies spread all over the country.

**Table 19.1**

The total road length in India has been categorised in three parts viz. Highways, Urban Roads and Project Roads, the information about which has been presented here by total and surfaced length.

**Table 19.2**

The road length of highways consists of the route lengths of highways running through the length and breadth of the large administrative areas of districts, states and the country, connecting all urban areas/centres of traffic.

- (a) National highway is a highway which is declared as such under the National Highways Act, 1956.
- (b) State highway is a highway which is declared as such by a State Government.
- (c) Other highways are those highways which are maintained by State Public Works Departments (except National highways and State highways), District Boards /Zila Parishads, Village Panchayats and Panchayat Samitis/ C.D. Blocks.

**Table 19.3**

Data on urban road length shown in this table relate to roads constructed and maintained by municipalities, by Railways within Railway Colonies, by Port Authority in the Port Areas and by Military Engineering Service in Cantonment areas.

**Table 19.4**

The road lengths given here include the lengths of access roads within project areas for the exploitation of resources such as forests, hydro-powers, sugarcane, irrigation, coal etc.

**Table 19.5**

Width-wise length of National and State highways are classified as single lane, double lane or multi-lane, according to the carriageway. Width of the roads (other than that in hilly terrain) is below 7 metres, 7 to 10.5 metres and above 10.5 metres respectively as per standards laid down by Indian Road Congress.

**Table 19.6**

The table indicates growth of National highways and expenditure thereon since 1990-91.

**Table 19.1-TOTAL AND SURFACED ROAD LENGTH**

# CHAPTER 20

## SHIPPING

This section presents tables relating to the strength and tonnage of Indian merchant shipping. The data on strength of the fleet covers ships registered under Merchant Shipping Act, 1958 and the source for the data is the Directorate General of Shipping. However the basic source of data for shipping traffic is the respective Port Authorities of Indian Ports. These data are collected and published by the Transport Research Wing of the Ministry of Shipping and also maintained by the Directorate General of Shipping.

Table 20.1

This table shows the strength of Indian merchant shipping fleet in terms of no. of vessels and Gross Registered Tonnage (GRT) plying for the coastal and overseas trade. The breakup of the fleet into passenger vessels, tankers, dry cargo vessels etc. is also given for the latest year.

Table 20.2

This table gives information regarding the total sea borne imports and exports and share of Indian flag vessels in the traffic handled at ports.

Table 20.3

This table provides the data regarding number and Net Registered Tonnage (NRT) of vessels which entered and

cleared with cargo and in ballast by the type of vessels, namely, steam and sailing. Net Registered Tonnage is defined as the net volume of enclosed space of vessels less crew space, engine room and other space not used for cargo. The unit for measurement of NRT is a ton of 100 cubic feet.

**Tables 20.4**

These tables respectively presents data regarding the number and Net Registered Tonnage of vessels which entered Indian ports and which cleared from Indian ports with cargo and in ballast by nationality of vessels.

**Tables 20.5**

These tables present data regarding the number and Net

Registered Tonnage of vessels which entered and cleared with cargo and in ballast respectively by nationality of vessels in coastal trade.

**Table 20.6**

This table provides data relating to the number and Net Registered Tonnage of steamers and vessels (sailing) in foreign and coastal trade handled by major ports in India.

**Table 20.7**

The table presents data relating to gross tonnage of imports and exports in coastal and foreign trade by major Indian ports.

## GROSS WEIGHT OF CARGO HANDLED AT MAJOR PORTS

# CIVIL AVIATION

---

# CHAPTER 21

## CIVIL AVIATION

The section presents tables relating to revenue traffic carried by Indian scheduled operators, viz., Air India and Indian Airlines. These two Corporations came into operation in August, 1953 on nationalisation of air transport in India. Indian Airlines operates on routes inside India and on international routes to adjacent countries while Air India operates mainly on international routes.

The data for domestic and international services have been shown separately. For ensuring international comparability of data, the standards laid down by International Civil Aviation Organisation (ICAO) have been adopted.

Table 21.1

This table presents statistics relating to passengers and cargo traffic carried by the national carriers on scheduled operations in domestic (Indian Airlines, Air India) international services (Air India and Indian Airlines) separately.

Table 21.2

This table presents similar data for Indian non-scheduled operations.

Various technical terms used in these tables are defined below:

**Hours Flown-** These figures present the total number of hours flown by planes carrying the revenue traffic.

**Aircraft Kilometres Flown-** These figures represent the total kilometres flown by planes carrying the revenue traffic.

**Tonne Kilometres Available-** The figures are obtained by multiplying the total tonnage offered to the public for air transportation of passengers, freight and mail by the kilometres flown.

**Passenger, Freight and Mail Carried-** The number of passengers carried represents the total number of passengers carried on different air-routes treating passengers travelling by planes for two or more routes as having performed two

or more journeys. These figures relating to the weight of freight and mail carried are expressed in tonnes.

**Passenger Kilometres Performed-** The figures are obtained by adding up the kilometres travelled by each passenger.

**Tonne Kilometres Performed-** Represents aggregates based on the product of the tonnage of freight or mail as the case may be, and the distance through which the load was carried. The figures relating to total load tonne kilometres take into account all kinds of traffic including passengers.

**Passenger Load Factor-** Represents the percentage of passenger kilometres flown to the seat kilometres available.

**Weight Load Factor-** Represents the percentage of tonne-kilometres performed (passenger, freight and mail) to the tonne kilometres available.

## PASSENGERS CARRIED

('000 NO.)

# TOURISM

# CHAPTER 22

## TOURISM

Table 22.1

This section presents data on foreign tourists coming to India, by their nationality. For this purpose the Department of Tourism has adopted the following definition as per recommendation of "U.N. Conference of International Tourism, Rome, 1963".

'A foreign tourist is a person visiting India on a foreign passport staying at least twenty four hours in India and the purpose of whose journey can be classified under one of the following headings:

- (i) Leisure (recreation, holiday, health, study, religion and sport);
- (ii) Business, family, mission or meeting'.

The following are not regarded as "foreign tourists".

1. Persons arriving, with or without a contract, to take up an occupation or engage in activities remunerated from within the country;
2. Persons coming to establish residence in the country;
3. "Excursionists" i.e. temporary visitors staying less than twenty four hours in the country (including travellers on cruises).

Statistics in this publication do not include the following:

1. All foreigners entering India from Bhutan by land,
2. All foreigners entering India through land routes along Indo-Nepal Border.
3. Children who are less than 3 years of age.

(1) Data for the year 1995 relate to Confederation of Independent States.

# FOREIGN TOURISTS IN INDIA

## COMPOSITION (2001)

# POST AND TELECOMMUNICATION

---

# CHAPTER 23

## POST AND TELECOMMUNICATIONS

This section presents operating and financial data relating to the different branches of the Posts and Telecommunications Departments, including the Post Office Savings Banks. This comprises of statistics on the number of offices and the length in kilometers of telegraph lines as well as the volume of traffic handled by those offices and/or sent over the wires which can be used to study the growth of traffic with the expansion of facilities and vice versa. For details, Annual Report and the Statistical Digest published by the Department of Posts and Department of Telecommunications, Ministry of Communications may be seen.

Table 23.1

This table provides the general all India statistics of post offices, namely, number of post offices, letter boxes, postal articles, money orders etc. This table also provides data regarding the total strength of establishments and length of railways, roads etc. over which the mail was carried.

Table 23.2

This table presents estimated number of postcards, letters, newspapers, parcels and packets handled by the post offices. The table also presents the actual number of registered, insured and value payable articles. In the case of unregistered postal traffic, it is not possible to maintain day-to-day

statistics of the actual number of articles handled by the post offices. The number of unregistered articles is, therefore, estimated from a count of articles in all post offices in India taken during the week in February (representing busy season) and week in August (representing slack season). This table, in addition to all India totals for earlier years, presents circle-wise information for latest year regarding number of post offices, letter boxes, postal articles etc.

**Table 23.4**

This table provides circle-wise and all India information regarding number and amount of money orders issued and paid. The data for Indian and foreign money orders are shown separately.

**Table 23.5**

This table presents number of post office savings banks, number of depositors and amount deposited and withdrawn.

**Table 23.6**

This table provides data regarding receipts and expenditure of Post Offices by heads. Receipts under postage including both sale of stamps and postage paid in cash, i.e., (i) postage prepaid in cash in post offices, (ii) credits afforded in the schedule of customs duty on account of postal redirection fees and insurance fees realised on delivery of inward foreign parcels, (iii) charges for resetting franking machines, and (iv) cash realised for unpaid or insufficiently paid postal articles.

# CHAPTER 24

## LABOUR

This section presents data in respect of employment, wages and earnings, industrial disputes, industrial injuries and labour training.

Attempts have been made to cover statistics regarding employment under the public and private sectors as far as figures are available.

Table 24.1

This table relates to all establishments under Central Government, State Governments, Quasi- Government Organisations and Local Bodies. The information is based on the data collected by the Employment Exchanges as part of their programme for collection of Employment Market Information on quarterly basis. The information on the number of persons employed at the end of every quarter is compiled by the Directorate General of Employment & Training through the Employment Market Information (E M I) Programme. The programme provides, inter alia, for collection, of employment data in the organised sector, i.e. the entire public sector and non-agricultural establishments employing 10 or more persons in the private sector. The data from the private sector establishments employing 25 or more

persons are collected under the Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959. The rest (employing 10 to 24 workers) are being collected from March, 1966 onwards voluntarily from the employers. The non-response is generally small but employment in such establishments is estimated by the local Employment Officers on the basis of data furnished for previous quarters and included in the overall estimate of employment.

The figures do not cover Arunachal Pradesh, Lakshadweep, Dadra & Nagar Haveli and Sikkim as the EMI data collection programme has not so far been extended to these States/ Union Territories. From 1975, data are based on the National Industrial Classification (NIC)-1970.

**Table 24.2**

This table relates to employment in Railways. As the regrouping of Government Railways was completed on 14th April 1952, zone-wise information regarding employment in Railways is available only from that year. Information regarding employment in Production Units includes Chittaranjan Locomotive Works and Integral Coach Factory from 1955, Diesel Locomotive Works, Dandakarnya- Bolangir-Kiriburu Railway Project from 1961, Railway Electrification Project from 1966, Wheel & Axle Plant from 1979, Diesel Component works from 1987 included earlier under Railway Board and other Railway office from 1980, Rail coach Factory from 1987 onwards. The employment in Ganga Bridge Project, which was shown under Works and Projects (Production Units) prior to 1960-61, is now under Eastern Railway as these projects were merged with Eastern Railway from 1960-61 and the employment in Dandakarnya- Bolangir- Kiriburu Railways Project and Railway Electrification Project which were shown under Works and Projects (Production Units) upto 31-3-1968, is now shown under South Eastern Railway as these projects were merged with the South Eastern Railway with effect from 1-11-1968. Besides, employment data for Railway Board

and other Railway Offices including Metropolitan Transport Project (Railways), are also given in this table. Data for non-Government Railways have been discontinued from 1978, whereas the figures for Railway Protection Special Force personnel were included from 1977 onwards. The employment data include Groups I to IV (permanent and temporary) employees.

**Tables 24.3 to 24.6**

The statistics in these tables relate to factories as defined under the Factories Act, 1948. This Act covers factories employing 10 workers or more with the aid of power, 20 workers or more without the aid of power and factories specially brought under the purview of the Act by the State Governments. The statistics of employment relate to persons employed directly or through any agency, whether for wages or not, in any manufacturing process or in cleaning any part of the machinery or premises used for a manufacturing process or any other kind of work incidental to or connected with the manufacturing process or the subject of manufacturing process. Thus the definition of worker as laid down in the Act does not cover manual workers alone but some clerical and supervisory personnel as well.

The employment figures represent "average daily employment". The figures of average daily employment are furnished by each factory by dividing the total attendance (man-days worked) during a year by the total number of working days during the year. Thus, the measure of employment is based on actual attendance and not on the physical number of persons on roll. In the case of non-responding factories, estimated figures have been given. The reported or estimated figures of average daily employment for all factories belonging to an industry group or a State are summed up to obtain the total average daily employment for an industry group or a State.

Data from 1956 onwards relate to re-organised States and

Union Territories and include estimated employment in factories not submitting returns whereas earlier figures relate to factories submitting returns only.

Table 24.3 presents industry-wise figures of employment in Govt. and Local Fund factories and in other factories. As the figures for the years 1971 onwards are being built up for the groups of industries according to NIC 1970, these figures have been given against the group of industries under old classification considered nearest to the new group. Table 24.4 provides Statewise data for total employment in all factories.

Table 24.5 and 24.6 present data regarding employment in factories according to the NIC 1987. Table 24.5 provides all-India figures upto 3 digit-level as per NIC-1987 for the years 1991, 1992 and table 24.6 gives Statewise data according to major groups of industries for the latest available year.

**Table 24.7**

Average daily employment in factories according to three broad age-categories and sex is shown in this table. The information relates to only factories submitting returns. The Factories Act, 1948 defines adult, adolescent and child as follows:

- (i) Adult is one who has completed 18 years.
- (ii) Adolescent is one who has completed 15 years but not 18 years.
- (iii) Child is one who has not completed 15 years (children below 14 years are not permitted to work).

**Table 24.8**

This table presents estimated average daily employment in "Working Factories" using power. The factories employing 10 or more workers and using power are covered under

section 2m(i) of the Factories Act, 1948. The statistics presented in the table relate to factories registered under this section.

**Table 24.9**

The table gives information regarding average daily number of workers employed in mines. The mineral-wise break-up of employment in mines is given for 12 important minerals. The method of computation of average daily number of workers employed is the same as given above for tables 24.3 to 24.6. Under the statutory provisions of Mines Act, 1952 the Director General of Mines Safety collects information regarding number of persons employed in mines and quarries (except those specially exempted by Central Govt.). Upto 1951, the information regarding employment in mines was collected under the Indian Mines Act, 1923 and thereafter it was collected under the Mines Act, 1952. The scope of the Act changes slightly from time to time. For example, by a Notification of March, 1955, a number of hitherto exempted stone, lime-stone and sand excavations were brought under the purview of the Act. The provisions of the Act were extended to the state of Jammu & Kashmir from the 15th August, 1968.

**Table 24.10**

This table shows the average daily number of persons employed in tea, coffee and rubber estates. The Directorate of Economics and Statistics, Ministry of Agriculture collects figures of employment from coffee and rubber estates every year through State Governments. The data for employment in tea coffee and rubber plantations are supplied respectively by the Indian Tea Board, Indian Coffee Board and the Indian Rubber Board. All workers in garden and outside are covered. According to instructions laid down, each estate furnishes figures of 'average daily employment' by dividing the total man-days worked during a year by a standard figures of 300 working days. The figures of "average daily employment" for individual estates are added up to obtain

the 'average daily employment' for each industry viz., tea, coffee and rubber. In the case of small estates of 20 hectare size and below, the employment is estimated by conducting sample studies.

Table 24.11

Statistics of employment in respect of shops, commercial establishments and restaurants registered under the Weekly Holidays Act, 1942 and Shops and Commercial Establishments Act in the various States are given in this table. These Acts are in force only in certain urban areas covering municipal areas, towns and cantonments, and hence the statistics are limited to shops and commercial establishments in such areas. The employment data are compiled by the State authorities either from the annual returns or from the figures furnished by the employers at the time of registration of the unit under the Act. In some cases the figures are collected specially by the Inspectors appointed under the Acts directly from the individual establishments. The number of shops may be more than the number of workers employed therein due to the fact that shops not employing any worker but run independently by the owners themselves are also covered by the Act.

Table 24.12

The table shows the number of applicants on the live-register of Employment Exchanges. The Employment Exchanges which are under the control of Director General of Employment and Training, Ministry of Labour, register names of the persons seeking employment and help them to secure employment. It gives State wise data by broad occupational groups based on revised National Classification of Occupations, 1968.

Tables 24.13 to 24.15

These tables present data about wages and earnings of factory workers in India. The data are collected under the

Payment of Wages Act, 1936 and relate to factories defined under clause (m) of section 2 of the Factories Act, 1948. Although from 1964 onwards the Act has been extended to smaller factories defined under section 85 of the Factories Act, 1948 also, such establishments had not been taken into account up to the year 1982 on account of incomplete coverage. However, the figures relating to section 85 factories have been included in statistics for the year 1983 onwards. Earnings include basic wages, dearness allowance, over-time payment, other cash allowances including production or incentive bonus, efficiency bonus, money value of concessions, annual or prepaid bonus and arrears. Prior to 1st April, 1958, the Payment of Wages Act, 1936, was applicable only to employees earning less than Rs. 200 per month. With the enforcement of the Payment of Wages (Amendment) Act, 1957 from 1st April, 1958 the scope of the Act was extended to cover persons earning more than Rs. 200 but less than Rs. 400 per month. Acceptable returns for the revised wage groups were received only from 1961. The information regarding above both the wage groups for the years 1961 to 1964 was published in the 1967 issue of this publication. The Payment of Wages (Amendment) Act, 1976 extends the coverage of the Act to persons earning less than Rs. 1000 per month. In 1982, the applications of the Act was further extended to cover persons earning less than Rs. 1600 per month. Data upto 1975, therefore, relate to persons drawing less than Rs. 400 per month, from 1976 to 1982 relate to persons drawing less than Rs. 1000 per month and from 1983 onwards relate to persons drawing less than Rs. 1600 per month.

The annual returns w.e.f. the year 1971 are being received as per National Industrial Classification, 1970. Thus the data on earnings after 1970 are not strictly comparable with the earlier data. The coverage of the data collected under the Payment of Wages Act, 1936 varies from year to year as returns are not received from all the factories coming under the purview of the Act.

Table 24.13 gives State-wise data regarding total annual earnings of factory workers. Figures in this table exclude information about Railway workshops but include those for Defence installations. Tables 24.14 and 24.15 present data for per capita annual earnings of factory workers respectively by States and by industries. The earnings of workers in the seasonal industries which comprise food, beverages, tobacco, construction are excluded from those presented in these two tables.

**Table 24.16**

This table presents wages and earnings of mining labour in coal and non-coal mines. The data for coal mines relate to average weekly earning of miners and loaders in December each year whereas those for other mines relate to average daily earnings of miners and loaders in December each year. The average weekly cash earnings in coal mines are computed by dividing the total payments during any complete working week in the month of December by the average daily attendance during that week. Upto 1965 the average daily earnings for mines other than coal were computed by dividing the total payment for December by the corresponding aggregate daily attendance. From 1966 onwards these are computed by dividing the earnings in the month of December for a week by six.

**Table 24.17**

this table gives statistics of injuries in factories. Under the Factories Act, 1948, statistics of industrial accidents due to which affected persons are prevented from attending to work for a period of 48 hours or more, immediately following the injury, are required to be reported to the Factory Inspectors. For statistical purposes, the number of injuries is given by the number of persons receiving injuries as a result of an accident and this number is more than the actual number of accidents because one accident may result in injuries to more than one person. The data on injuries presented in the table relate only to factories submitting returns. No estimates of injuries can be made for the defaulting factories. The incidence

rate of injuries is calculated by dividing the total number of injuries by the corresponding average daily number of workers employed in the factories submitting returns.

**Table 24.18**

This table shows number of accidents and number of persons receiving injuries in mines. The data are collected under the Mines Act, 1952, which has been recently amended as mines (Amendment) Act, 1953. Some changes in the definition of serious accident have been brought in. Accidents have been classified into fatal, spot serious and reportable serious. A spot serious accident is one where one or more persons have received "serious bodily injury", which means "any injury which involves, or in all probability will involve, the permanent loss of any part or section of a body or use of any part or section of a body, or the permanent loss of or injury to the sight or hearing or any permanent incapacity or the fracture of any bone or one or more joints or bones of any phalanges of hand or foot". A reportable serious accident is one where one or more persons have received "reportable injury" which means "any injury other than a serious bodily injury which involves, or in all probability will involve, the enforced absence of the injured person from work for a period of seventy two hours or more".

Information on reportable serious accidents are collected on a quarterly basis and complete statistics on the same is not available. The statistics on the same is not available. The statistics for the year 1984 onwards relates to the amended definition of accidents. Data from 1951 to 1967 cover whole of the India Union except Jammu and Kashmir.

**Table 24.19**

The tables show the State wise distribution of number of disputes, workers involved and number of man-day lost on account of industrial disputes resulting in work-stoppages. The data are collected on a voluntary basis by the State authorities and the Regional labour commissioners (Central)

who furnish consolidated returns to the Labour Bureau. The figures of number of workers involved relate to the maximum number of workers involved on any day during the course of work-stoppage as known upto by the date of reporting. The figures of man - days lost are calculated by adding up actual vacancies caused by the work-stoppage on each working day. Scheduled holidays during the period of work stoppage are not taken into account in the calculation of man-days lost.

**Table 24. 20**

This table shows all-India figures of industrial disputes by casues of disputes.

**Table 24.21**

The data included in the table relate to compensated injuries under the Workmen's compensation Act, 1923 and are based on annual returns received under the Act from State Governments, Posts and Telecommunications Departments and Railway Board for different zonal railways. Under the Act, compensation is payable to workers employed in scheduled employment for injuries due to accident resulting in death or disablement for more than 3 days provided that it is not caused through the fault of the worker himself. As all the injuries are not compensated, the number compensated injuries do not reflect the total numnber of injuries occuring. Further many of the establishments covered by the Workmen's compensation Act fail to submit returns and hence information received by the State Authorities about the number of compensated injuriesand the amount of compensation paid is incomplete.

In establishments covered by the Employees State Insurance Act, compensation in respect of injuries is paid under that Act and not under the Workmen's Compensation Act. This limitation affects the trend and comparability of the statistics of compensated injuries.

**Table 24. 22**

This table presents data on employment in insurance. The information upto the year 1974 - 75 was collected by the central Statistical Organisation, Department of Statistics. From 1975 -76 onwards, the information has been furnished by the Ministry of Finance in respect of Life Insurance Corporation and General Insurance Corporation but this excludes four State Insurance funds which account for less than half percent of total employment in the insurance sector.

**Table 24.23**

The table presents data on the number of banks and number of persons employed in the banking sector separately in respect of scheduled and non-scheduled banks and in regional rural banks and in the Reserve Bank of India. Information is collected by the Reserve Bank of India.

**Table 24.24**

These are two tables which give the number of persons employed in ports in India. The first one gives the staff strength in major, ports and the second one shows the data regarding number of dock workers registered with Dock Labour Board at major ports.

Table 24.1 - ESTIMATED EMPLOYMENT IN THE PUBLIC AND PRIVATE SECTORS

(1) Estimated by reporting the latest available figures.

**Notes:**

1. Data relates to Estimated average daily number of workers employed and is based on National Industrial Classification, 1987.
2. Data for industrial code 36 is included in that of code 35
3. Includes estimated figures of employment in factories not submitting returns.
4. Figures in brackets represents number of working factories.
5. Data is based on the returns received only.

# CHAPTER 25

## TRADE UNIONS

Table 25.1 to 25.4

Figures given in this section are based on the annual returns relating to calendar years received from the State Governments and Union Territories under the Indian Trade Unions Act, 1926. The Act applies to the entire Indian Union. The figures do not include Lakshadweep.

The statistics relate to only those unions which have been registered under the Act. It is not obligatory on trade unions to secure registration under the Indian Trade Unions Act. Even among registered ones, the response of the unions submitting annual returns is generally less than fifty per cent. Data regarding unregistered unions are not available.

Table 25.1-NUMBER, MEMBERSHIP, INCOME, EXPENDITURE AND FUNDS OF REGISTERED TRADE UNIONS

Year/State/ returns	Number of trade unions			Membership at the end of the year ('000)			Income incl. balance carried over from prev- the year (Rs.lakh)	Expen- diture (Rs. lakh)	Balance of funds at the close of

## REGISTERED TRADE UNIONS IN INDIA

(NUMBER)

## INCOME & EXPENDITURE OF REGISTERED TRADE UNIONS

(RS.LAKH)

**PRICES**

---

# CHAPTER 26

## PRICES

This section presents statistics of the following items relating to prices

- (i) Index number of wholesale prices;
- (ii) Index number of consumer prices for
  - (a) Industrial workers,
  - (b) Urban non-manual employees and
  - (c) Agricultural labourers;
  - (d) Rural labourers
- (iii) Spot prices of gold and silver at Mumbai.

Office of the Economic Adviser to the Government of India in the Ministry of Industry has been publishing the Index Number of Wholesale Prices with effect from January 10, 1942 onwards. The Consumer Price Index Numbers for Industrial Workers and for Agricultural Labourers and Rural Labourers are computed by the Labour Bureau, Ministry of Labour and are published in their monthly publication "Indian Labour Journal" and annual publication "Indian Labour Statistics". Index Numbers of Consumer Prices for Urban Non-Manual Employees are prepared by the Central Statistical Organisation and published in the monthly publication 'Monthly Abstract of Statistics'. The Index Numbers of spot prices of gold and silver at Mumbai are computed by the Reserve Bank of India and are published in their monthly publication 'Reserve Bank of India Bulletin'.

**Table 26.1**

This table provides data in respect of the revised (current) series of Index Numbers of Wholesale Prices in India with base 1993-94=100. This series was introduced with effect from 1st April, 2000 on the basis of the recommendations of Working Group on Revision of Index Numbers of Wholesale Prices in India under the Chairmanship of Prof. S.R. Hashim, Member, Planning Commission. This revised series replaced the hitherto operated Wholesale Price Index Series which had 1981-82 as its base year.

The revised series (1993-94) has 435 items for which there are 1918 quotations. All items having large transactions in the economy have been included in the revised series to the extent feasible. Thus the revised series will have a substantially updated and representative basket of commodities as well as their varieties/grades and markets.

The coverage of the new series has been rationalised by incorporating important new items, dropping unimportant items and amalgamating items with those to which they are akin.

136 distinctly new items have been added to the basket of the revised series, while 150 items have been dropped from the existing series. Thus 68% of the items/commodities are common in the existing and revised series.

Some of the important items that enter the WPI commodities basket for the first time are Electricity for Railway Traction, Purified Terephthalic Acid (PTA), Injection Moulded Plastic Items, Oxygen Gas in Cylinder, Railway Sleepers (Cement product), Thinner, MSSS Ingots, Cold Rolled Sheets, LPG Cylinder, Jelly Filled Telephone Cables, Colour TV Sets, Computer and Computer based Systems.

Some of the dropped items are Mica, Imported Petroleum Crude, Indigenous Petroleum Crude, Khadi, Handloom Cloth, Broad Gauge open Wagons, Wrist Watches.

**Table 26.2**

This table presents the Consumer Price Index Number for Industrial Workers on base 1982=100 by various centres. The

Labour Bureau is compiling this series on base 1982=100 w.e.f. October 1988 index in respect of 70 important centres belonging to Factory, Mining and Plantation sectors. The weighting diagrams for the compilation of Consumer Price Index Numbers are based on the average consumption expenditure of the working class family as revealed by the Family Income and Expenditure Survey conducted during 1981-82. Uniform scientific procedure is adopted under the guidance of Technical Advisory Committee on Statistics of Prices & Cost of Living (TAC on SPCL). The selection of markets, shops and outlets for the collection of retail price data at each of the centres, was made on the basis of their popularity among the working class population after making on the spot investigations in collaboration with the respective State Govts. and representatives of employers and employees. The weighting pattern was derived at the centre-level and monthly indices are compiled every month. The weight assigned to each centre is determined by taking product of the average consumption expenditure level based on the indices of 70 centres. A weighted average All-India Index is also compiled every month. The weight assigned to each centre is determined by taking product of the average consumption expenditure and number of families represented by a centre as a ratio of sum of such product over all the centres.

For further details regarding scope, methodology, etc., reference may be made to the January, 1989 issue of the 'Indian Labour Journal'. The monthly indices are also regularly published in the 'Indian Labour Journal'.

**Table 26.3**

The table presents Consumer Price Index Number data on the revised base 1984-85=100, which is based on a family budget of the non-manual employees population conducted during 1982-83 at 59 selected centres of the country. The revised index is being issued from November 1987 onwards. A non-manual employee family for purpose of this survey was defined as one "which derived 50 per cent or more of its income during the reference month from the earnings of its members who are gainfully occupied as employees in non manual work in non-agricultural sectors". These indices measure the average change in consumer prices over time at a particular centre and cannot be used for the comparison

of costliness of different centres. For details regarding scope and Methodology etc. please refer to April, 1989 issue of the Monthly Abstract of Statistics published by the Central Statistical Organisation.

**Table 26.4**

In Table 26.4, the agricultural year average Consumer Price Index Number for Agricultural and Rural Labourers on base 1986-87=100 in respect of 20 States and all-India (General & Food group) for the years 1997-98 to 2000-01 have been presented. These index numbers measure the extent to which the retail prices of a fixed basket of goods and services consumed by agricultural and rural labourers has changed when compared to the base year. The weighting diagrams for the series have been derived from the consumer expenditure data obtained from the fourth Rural Labour

Enquiry (1983). Rural retail prices paid by agricultural rural labourers are regularly collected through the staff of the Field Operation Division of the National Sample Survey Organisation from the selected shops of the selected markets serving 600 fixed sample villages spread over 20 States. For details regarding scope and method of construction, reference may be made to the February, 1996 issue of the "Indian Labour Journal", a monthly publication of the Labour Bureau.

**Table 26.5**

This table presents spot prices of gold and silver at Bombay, based on quotations supplied by the Bombay Bullion Association Ltd. Yearly prices are the highest/lowest quoted rates during the financial year upto 1970-71 & highest/lowest of closing quotations from 1975-76 onwards. Average prices are worked out from the closing quotations for working days. The nominal quotations for gold and silver are also included while compiling the figures.

# CHAPTER 27

## NATIONAL PRODUCT AND RELATED AGGREGATES

The tables presented in this section give the estimates of gross, net national product at factor cost, at current and constant (1993-94) prices.

### Tables 27.1 and 27.2

The estimates of net and gross national product at current and at 1993-94 prices are shown in these tables.

### Tables 27.3 and 27.4

The estimates of net domestic product at factor cost by industry of origin at current and at 1993-94 prices are given in the tables 27.3 and 27.4 respectively.

### Tables 27.5 and 27.6

The estimates of private final consumption expenditure in the domestic market at current and at 1993-94 prices are shown in these tables.

### Table 27.7

The table presents estimates of domestic saving by household sector, private corporate sector and public sector at current prices.

### Tables 27.8 and 27.9

The table present estimates of capital formation by type of assets and by type of institutions at current prices and 1993-94 prices respectively. These estimates are prepared by the commodity flow approach separately for construction, machinery & equipment and changes in stocks.

### Tables 27.10

The table presents the estimation of (i) gross domestic product, (ii) gross domestic saving (iii) gross domestic capital formation, and (iv) final consumption expenditure at current prices and also indicate the percentage share of public sector in each of the aggregates.

\*\* Estimated from the value of fixed capital stock and various types of assests and differs from the provisions for depreciation as per books of accounts. Alternative estimates of net saving/capital formation can be derived using provision for depreciation.

\*\*\* Net capital inflow is the deficit of the nation on current account in Balance of Payment Account excluding official transfer payments.

# CHAPTER 28

## NATIONAL FINANCE

The tables in this section show the budgetary position of Central Government and economic classification of the Central Government Budget.

### Tables 28.1

These table show the Revenue and Capital receipts and expenditure of the Central Government and State Governments.

### Table 28.2 to 28.4

The table 28.2 shows the detailed figures of Commodity-wise details of Revenue from Customs Duties through Exports and Imports.

The Table 28.3 shows Revenue from Excise Duties. The table 28.4 shows the receipts and Expenditure Under Corporation Tax on Income Other Than Corporation Tax.

### Table 28.5

Ever since 1957-58 an economic classification of the Central budget is being prepared by Economic Division of the Ministry of Finance. The system of Accounts given in this table analyses various aspects of the Central

Government's transactions vis-a-vis rest of the economy. Some of the significant magnitudes emerging from the analysis are:

- (a) the Central Government's total expenditure;
- (b) the Central Government's final outlays;
- (c) Capital formation out of the budgetary resources of the Central Government;
- (d) Net Capital formation and savings of the Central Government;
- (e) the various measures of deficit in the Central Government's budgetary transactions; and
- (f) Income generation by the Central Government.

The symbols used in this chapter are:

**INCOME TAX**

---

# CHAPTER 29

## INCOME TAX

Statistics presented in this section relate to returned income in respect of all returns with taxable income received by the Income Tax Department for the relevant assessment years. The coverage is based on returns and statements known as 150G prepared by the field.

Estimates are based on a sample of returns. Due to uneven receipt of summary sheets from field offices, substantial variation in the sampling fractions amongst the states and the status have been noticed. However, the tables in this Section provide estimates within reasonable margin of error at the All India Level.

The coverage of income tax statistics published earlier (upto 1983-84) was limited to the number of assessment forms received for tabulation by the Directorate of Inspection, Department of Income Tax and for the income tax statistics upto 1983-84, the earlier issues of publication may be referred.

The number of returns shown are those returns declaring incomes above taxable limits relating to relevant assessment year (AY)

**Returned Income:** Income returned by the assesses namely the 'total income' as given in the return.

**Tax Payable:** Tax including surcharge on returned income.

Table 29.1

This table analyses the time series data on returned income and tax payable according to the different status of

assesses viz., (i) Individual, (ii) Hindu undivided family, (iii) Firm, (iv) Company and (v) Others (Association of persons and un-registered firms etc). It also provides data on different range of income returned by various status of assesses for the year 1996-97 of income returned, tax payable etc. Here only all-India tables are given. This is mainly due to non-receipt of requisite samples from the field in time, which was mainly due to the fact that the sample received from the field were both scanty and non-representative.

**Table 29.2**

This table analyses number of returns, gross income and gross tax for the assessment year 1996-97 according to source of income. An assesses having income from more than one source is included under each one of the sources from which the income is derived.

**Table 29.3**

This table presents number of returns, amount of deductions claimed and total relief by nature of deductions for the assessment year 1996-97.

**Table 29.4**

This table presents rate of tax for assessment year 1997-98.

**Table 29.5**

This table analyses the number of returns, gross income and gross tax payable from business and profession by nature of business for non-company and company for the assessment year 1996-97.

# CHAPTER 30

## EXCHANGE, COINAGE AND CURRENCY

This section presents data on exchange and money rates, price of bullion and government securities, coinage and currency. The sources of data regarding coinage are India Government Mint Mumbai & Kolkata and for the other tables the Reserve Bank of India and for table 30.1-Mumbai Bullion Association.

Table 30.1

This table provides data regarding Money Rates in India which are defined as the rates at which the various classes of banks in the country are prepared to discount or rediscount bills of exchange, to give loans and advances, or to accept deposits. Various money rates mentioned in this table are described below:

### Reserve Bank of India

**Bank Rate** - The standard rate at which the Reserve Bank of India is prepared to buy or rediscount bills of exchange or other commercial paper eligible for purchase under the Reserve Bank of India Act, 1934. The Bank Rate was raised from 10.00 per cent to 11.00 per cent from July 4, 1991. It was further revised from, 11.00 per cent to 12.00 per cent from October 9, 1991. The Bank Rate was further reduced by one

percentage point to 11.00 per cent with effect from the close of business on April 15, 1997. It was again revised to 10.00 per cent with effect from the close of business on June 25, 1997. The Bank Rate was further reduced by one percentage point to 9.00 per cent with effect from October 22, 1997 which was raised to 11.00 per cent annum with effect from the close of business on January 16, 1998. The Bank Rate was further reduced to 10.50 per cent effective March 18, 1998. Effective April 2, 1998, the Bank Rate was reduced by one-half of one percentage point to 10.00 per cent, which was further reduced by one percentage point to 9.00 per cent per annum effective April 29, 1998. It further reduced to 8% w.e.f March 02, 1999, to 7% w.e.f April 02, 2000, raised to 8% w.e.f July 22, 2000, decreased to 7.5% w.e.f February 17, 2001, to 7% w.e.f, March 02, 2001 and to 6.5% w.e.f October 23, 2001.

#### State Bank of India

**Discount Rate** - The rate at which the State Bank of India discounts commercial bills for first three months. The discount rate was reduced to 16.00 per cent effective March 1, 1993 and further to 14.00 per cent effective September 9, 1993.

**Advance Rate** - The Bank's prime lending rate, which regulates all interest rates for the various categories and classes of advances granted by the Bank.

**Demand Loan Rate** - Basic advance rate at which the State Bank of India grants demand loans to scheduled commercial banks against Government securities. Call loans to co-operative banks against Government securities are granted at a rate lower than call loan rate to other commercial banks.

#### Other selected major Scheduled Commercial banks

**Call Money Rate** - Relates to inter-bank advances repayable on call at the option of the lender. Deposits requiring prior notice of any type for repayment are not included while overnight deposits are included. Weighted average of borrowing rates reported by selected banks, weights being proportional to amounts borrowed.

**Table 30.2**

Prices of Silver - Relate to spot quotations showing highest lowest, average prices of silver in London, New York and Bombay. Average prices are the average of closing quotations for working days.

**Table 30.3**

Number and value of coins minted- Figures relate to coins minted by India Government Mints, Bombay and Kolkata. Indian mints have also minted coins for foreign countries like East Africa, Sri Lanka, Bhutan, Malaysia, Strait Settlements, Iraq and Egypt, the figures for the number and value of which are shown in brackets. Coins have been classified according to their metal content described as under

**Cupro-Nickel** - Includes 10 naya paise, 5 naya paise and 2 naya paise introduced on 1st April, 1957. This also includes 50 paise and 25 paise introduced in January, 1972 and 50 paise commemorative coins introduced on the occasion of the 25th Anniversary (Silver Jubilee) of India's Independence in August, 1972 in addition to 50 paise coins with development oriented designs introduced on 15 August, 1973. This also includes 2 Rupee and 50 paise coins (IXth Asian Games, Delhi) introduced on 3-12-82 and 1 Rupee and 50 paise (National Integration) coins introduced on 20-12-82. On the occasion of International Youth Year 1985, Proof Coins having the denominations of 10 Rupee and 1 Rupee were minted/introduced in the year 1986-87 and uncirculated coins having the denomination of Rupee 10 were minted/introduced in the year 1986-87 and 1987-88.

**Aluminium Magnesium** - Coins of this metal were first introduced in 1964-65 and it includes 1 paise, 2 paise, 3 paise and 5 paise coins. 1 paise coins were introduced in October, 1965; 2 paise coins in July, 1965; 3 paise coins in October, 1964; 5 paise coins in January, 1967 and 10 paise coins in October, 1971 and also includes 10 paise with development oriented designs (Planned Families - Food for All) coins introduced from the 15th August, 1974. This also includes 20 paise and 10 paise (National Integration) coins introduced on 12-10-82.

Table 30.4

Notes in Circulation - Comprise the notes held outside the Reserve Bank, i.e. by the public, banks, treasuries, etc. One rupee notes and coins issued by the Government of India are excluded.

Gold coins & bullion and foreign securities - As required in Section 33(2) of the Reserve Bank of India Act, the aggregate value of the gold coin, gold bullion and foreign securities held in the Issue Department at any time should not be less than Rs. 200 crores. Of this, the aggregate value of the gold coin and gold bullion should not be less than Rs. 115 crores.

Foreign Security - Represents securities payable in the currency of any foreign country which is a member of the International Monetary Fund.

Rupee Coin - Represents the face value of the whole rupees held at the offices of the Issue Department of the Reserve Bank of India and in currency chests at offices and branches of the Bank and its agencies and sub-agencies including Treasury agencies. Since July 1940, Rupee coin holdings include one Rupee notes issued by the Government of India under the Currency Ordinance, 1940. Mahatma Gandhi Birth Centenary ten Rupee silver coins and World Food and Agriculture Organisation commemorative ten Rupee silver coins and Independence Day Silver Jubilee ten Rupee coins issued by the Government of India in October, 1969, October, 1970 and August, 1972 and two Rupee coins issued since November 1982 are also included.

Government of India Rupee Securities - These are securities of any maturity issued by the Central Government in respect of public loans and also include rediscounted treasury bills and Government of India adhoc treasury bills issued to the Reserve Bank. The securities are valued monthly at the market rates on the last working day of the month.

Table 30.5

Money Stock Measures (M1) consist of currency with the

public (notes and coins in circulation less cash in hand with banks) and deposit money of the public.

Notes - Comprise the notes issued by the Government of India upto April 1935 and the Reserve Bank since then, less the notes held in the Banking Department of the Reserve Bank. These comprise therefore, the notes held outside the Reserve Bank i.e., by the public, banks, treasuries, etc., and are net of return of about Rs. 43 crores of Indian notes from Pakistan upto April 1985.

Rupee coin - As in the case of notes, holdings in the Banking Department of the Reserve Bank of India are excluded, but Rupee coin held by Government Treasuries as part of Treasury balances and those held by banks have been included. Ten Rupee commemorative coins issued since October 1969, two Rupee coins issued since November 1982 and five Rupee coins issued since November 1985 are also included under Rupee coins. Figures are also net of an estimated amount of Rs. 15 crores of Indian Rupee coin in circulation in Pakistan.

Small coins - The circulation of small coins as presented in table 30.4 includes also small coins held by the Government, Treasuries and banks. As in the case of Rupee coins, holdings of small coins in the Banking Department of the Reserve Bank of India are excluded. Figures relate to the last day of the period.

Cash in hand with banks - Relates to such holdings of commercial and co-operative banks coming under the purview of the Banking Regulation Act, 1949.

Table 30.6

Absorption of small coins - Figures relate to the Indian Union.

## CRIME STATISTICS

This section includes tables providing statistics of crime in India. The statistics were collected by the Bureau of Police Research and Development, Ministry of Home Affairs till 1983 and National Crime Records Bureau, Ministry of Home Affairs from 1984 onwards, from the Police authorities of the State Governments. All India information relates to the sum-total of available data of States/U.Ts. only and is, therefore, subject to revision.

**Table 31.1**

This table presents the incidence of cognizable crimes under Indian Penal Code. The incidence of theft includes Auto theft and other theft. The incidence shown under 'other crimes' includes crimes other than the specified crimes.

**Tables 31.2 and 31.3**

These tables provide statistics of cognizable crimes classified by cases and by persons separately. Table 31.2 gives the disposal of cases by courts and table 31.3 gives the disposal of persons by courts.

**Table 31.4**

This table gives information relating to recidivism among persons arrested under IPC crime.

**Table 31.5**

Information relating to the No. of cases reporting property stolen and recovered, due to various type of crimes is given in this table.

**Tables 31.6 to 31.11**

These tables present data relating to juvenile delinquency under different crime heads, sex and age-wise distribution of juveniles apprehended; Number of juveniles arrested by their education, family background, economic setup etc. besides the disposal of juveniles arrested and sent to courts in India.

**Table 31.12**

Information relating to number of persons arrested under important heads of crime and classified according to sex, is given in this table.

**Table 31.13**

This table presents number of cases reported due to various motives of murder and culpable homicide not amounting to murder.

**Tables 31.14 and 31.15**

The actual strength of both armed and civil police, as on 31st December of the year stated, under different ranks, is furnished in table 31.14. The information relating to civil police also includes district armed reserved police. Table 31.15 gives information relating to actual strength of police force vis-a-vis Cognizable Crime (IPC) reported besides some useful indicators.

# CHAPTER 32

## ACCIDENT STATISTICS

This section presents data relating to accidental deaths and suicides in India. The source for these data is the National Crime Records Bureau (NCRB), Ministry of Home Affairs, New Delhi, which obtains information from Police Authorities in different States.

Table 32.1

This table shows the incidence of accidental deaths in different States, Union Territories and important cities. The causes of accidents have been classified into two broad categories viz. (i) natural causes such as lightening, heat stroke, landslide, etc. and (ii) accidents due to unnatural causes such as mishaps in factories, air crash, railway accident etc.

Table 32.2

This table presents statistics of suicidal deaths classified according to sex and age-group and also by causes of suicides.

## NUMBER OF ACCIDENTAL DEATHS BY NATURAL CAUSES (2000)

## NUMBER OF ACCIDENTAL DEATHS BY UNNATURAL CAUSES (2000)

**EDUCATION**

**STATISTICAL ABSTRACT**

---

# CHAPTER 33

## EDUCATION

The academic year for the tables in this section is taken to coincide with the financial year ending 31st March.

Table 33.1

This is a summary table giving data regarding educational institutions, scholars and expenditure on education. Thus this table gives a general idea of the educational development in the country from 1990-91 onwards. Direct expenditure means expenditure directly connected with the maintenance of an institution viz. salary of teachers and other recurring expenditure. Indirect expenditure means all expenditure on inspection, direction, buildings, furniture, scholarships and other miscellaneous items. Its nature is such that it cannot be apportioned to each type of institution.

Table 33.2

This table shows the number of recognised educational institutions by various types.

Table 33.3 and 33.4

These tables present enrolment in institutions/colleges and schools separately.

Table 33.3 gives enrolment according to faculty and stage for the following heads for colleges only.

- (i) Colleges for general education.
- (ii) Colleges for professional and special education.

While Table No. 33.4 gives number of Scholars by courses and stages for schools only for the same headings as in case

of colleges in table 33.3 Special education includes mainly reformatory schools, schools for handicapped. Institutions for fine art including music and dancing and social work. Institutions of adult education and oriental studies have been included under other education.

**Table 33.5**

This table shows the number of institutions and scholars in rural areas i.e. the areas outside limits of municipal, cantonment and notified small-town committees.

**Table 33.6**

This table shows direct expenditure by type of educational institutions and indirect expenditure on all educational institutions. Indirect expenditure represents the amount incurred on direction, inspection, buildings, furniture, scholarships, hostels and other miscellaneous items. Data in respect of colleges have been presented upto the year 1994-95 only, as these are yet to be compiled by University Grants Commission.

**Table 33.7**

This table shows the number of total and women teachers engaged in teaching at different stages of education in recognised institutions, viz. primary, middle, secondary and also in technical and special schools and in colleges and universities. Teachers in schools for general education are classified as trained and untrained.

**Table 33.8 and 33.9**

This table presents literacy rate as per the Census (1991) and the various NSS Rounds, conducted by National Sample Survey Organisation (NSSO).

General Notes : Some of the tables relating to Expenditure and Education of Scheduled Castes and Scheduled Tribes have not been included here as the latest date for which information was available pertain to the year too far in the past. However Statistical Abstract, India 1997 can be referred for such data.

**Table 33.1-EDUCATIONAL INSTITUTIONS, SCHOLARS AND EXPENDITURE**  
**General Summary**

Year	Number of institutions			Number of scholars ('000 no.)		
	University/Colleges (1)	Schools(2)	Total	University/Colleges		Schools(2)*

# CHAPTER 34

## NEWSPAPERS AND PERIODICALS

Tables 34.1 to 34.4

This section presents information in respect of newspapers and periodicals which is based on the data collected under the authority of the Press and Registration of Books Act and are available in the Annual Report of the Registrar of Newspapers for India namely "Press in India". The definitions of the terms used in the tables in this section are given below:

Newspaper . . . . .	Newspaper means any printed (including cyclostyled) periodical work containing public news or comments on public news.
Periodical . . . . .	A newspaper appearing at an interval of a week or more.
Other Periodical . . . . .	Periodicals other than daily, tri-weekly, bi-weekly, weekly, fortnightly, monthly, quarterly and annual.
Periodicity . . . . .	Time gap between two issues of newspaper (daily, weekly, fortnightly, monthly, etc.)
Daily . . . . .	A newspaper issued at least four times a week.
Circulation . . . . .	Average number of copies sold and distributed free per publishing day.
Other languages . . . . .	Languages other than the printed languages included in the 8th Schedule of the Constitution of India and English.

# **PUBLIC HEALTH STATISTICS**

# CHAPTER 35

## PUBLIC HEALTH STATISTICS

**A**vailable information concerning public health statistics in India, is shown in the tables under this section. Data in greater detail are published by Ministry of Health and Family Welfare, Government of India and the various State authorities in the form of periodical reports. The information relates to all the Indian Union, unless otherwise specified. The figures for the latest available year are shown in greater detail. Corresponding figures for the earlier years are shown in totals only.

Table 35.1

This table shows the number of hospitals and dispensaries and the number of beds available.

Table 35.2

This table gives the number of medical practitioners in 'Allopathy', registered with the 'Medical Councils' in the States. Information relating to States, where there are no 'Medical Councils', have not been included.

Table 35.3

This table gives the number of nursing personnel registered with 'Nursing Councils' or 'Boards' according to different categories.

Table 35.4

Data concerning number of mental hospitals, beds, patients admitted and discharged, etc. are shown in this table. For the column on patients discharged, only total number is given and the break-up by cured and otherwise is not shown.

**Table 35.5**

The figures of Family Welfare Statistics, given in the table are based on the information received from the various States/Union Territories and as compiled by the Department of Family Welfare. Estimates of population were arrived at by taking into account 1991 census figures.

The Number of conventional contraceptive users is arrived at by dividing the off-take of Condoms, Diaphragms, Jelly/ Cream Tubes and Foam Tablets by 72, 2, 7 (3 in case of Deflin Cream Tube of increased capacity and efficacy i.e 100 gms. with a dosage of 2.5 ml. from the year 1987-88) and 72 respectively required on an average by a couple in a year to give complete protection.

Table 35.1-NUMBER OF HOSPITALS, DISPENSARIES AND BEDS

## Notes :

- Figures suffer from under reporting of Hospitals of Private and Voluntary Organisations.
- Hospital figures (prior to 1997) are generally inclusive of CHCs; from 1997 excluding CHCs'.
- In case, the reference year is different from 1.1.2000, figures have been worked out on the basis of projected population as on 1st March of that year to which the data relate(provided in bracket).
- Rural/Urban distribution are not strictly comparable over years as standard classification procedures are not followed by States/UTs.
- Dispensaries figures (prior to 1997) are generally inclusive of PHCs; from 1997 excluding PHCs'.
- Figures of number of beds(all types) relate to Allopathic establishments-Hospitals, dispensaries, CHCs, PHCs and Sub Centres, Sanatorium and TB Clinics and other Health establishments.
- In case, the reference year is different from 1.1.2001, figures in col.6 have been worked out on the basis of projected population as on 1st March of that year to which the data relate (provided in brackets).
- A- Reduction in Hospitals (from 2000) is due to upgrading 2 Rural Hospitals to CHCs.
- B- Reduction (from 2000) is due to under reporting of Private Hospitals.
- C- Reduction of total hospitals (from 2000) due to conversion to CHCs.
- D- Reduction in figures (from 1992) is due to non-reporting of Rural Hospitals and exclusion of Chatisgarh.
- E- Reduction in Hospitals (from 1998) due to exclusion of CHCs.
- G - Total hospitals and hospitals beds reduced (from 2000) due to heavy decreases in Madhya Pradesh figures and non-reporting by newly formed states.
- H- Total beds reduced (from 2000) due to heavy decrease in Madhya Pradesh figures and non-reporting by newly formed states.
- + Figures are positive but negligible
- a- Reduction in figures (from 1992) is due to non-reporting of Rural Dispensaries and exclusion of Chatisgarh.
- b- Dispensaries figures not reported.
- c- Rural/Urban breakup is not reported; also includes 31 maternity homes with 321 beds.
- \*- Rounded to Thousand; hence approximate.
- #- Reduction in figures (from 1992) is due to non-reporting of Rural areas and exclusion of Chatisgarh
- \$ Reduction from 2000 is due to under reporting of private Institutions.

## FAMILY WELFARE PROGRAMME

# HOUSING

# CHAPTER 36

## HOUSING

This section contains information on availability of houses, condition of the house structure, investments on dwellings and the amenities available in the houses. Tables included here are mostly based on data collected by the Office of the Registrar General of India, Ministry of Home Affairs at the time of house listing for the two Censuses conducted in 1981 & 1991 and the reports of the 44th Rd., 49th Rd. & 50th Round of Survey by National Sample Survey Organisation, Ministry of Planning and Programme Implementation. Office of the Registrar General of India brings out a number of publications on Houses and household amenities covering the results of Census, however still some of the detailed data on housing based on 1991 Census are awaited. National Sample Survey Organisation presents the important results of its surveys conducted in different rounds in its quarterly journal *Sarvekshana*. Besides these two agencies, National Building Organisations, Ministry of Urban Affairs and Employment periodically collects data on investment in building etc. the summary results of which have been shown in some of the tables presented in this section.

Tables 36.1 and 36.2

These tables present data on occupied residential houses, households, size of household in Census years 1981

and 1991. Table 36.2 provides percentage distribution of occupied census houses by the type of uses to which they are put in the two censuses.

#### Tables 36.3 to 36.5

The first two tables here provide data on distribution of households by type (independent house, flat, chawl/ basti, others) of the dwellings and the structure of house (pucca, semi-pucca and kutcha) as revealed by Census and NSS results. The table 36.5 presents data about the proportion of dwellings in bad condition within each type of pucca, semi-pucca and kutcha structure of houses.

#### Tables 36.6 and 36.7

Table 36.6 has been divided into two parts viz., 'projects completed' and 'projects under execution' and gives data on 'Investment in residential and non-residential building' during 1992-93 by various Central and State Public Sector agencies including public undertakings for each State and Union Territory. Table 36.7 presents for each State and Union Territory the data on construction of dwellings of different types (by number of rooms possessed) within the categories of 'completed' and 'under execution' during 1992-93.

Data for these tables relate to 36 administrative divisions and 80 construction divisions of Central Public Works Department (CPWD), Central Public Sector Undertakings including nationalised banks, Reserve Bank of India and Port Trusts etc. In regard to State sector, data relate to twelve States and two Union Territories only, the rest of the States/UTs have not furnished data so far. Railways and some other Central agencies do not provide Statewise break-up of the investment and therefore, the total investment by these agencies have been shown separately under the head 'buildings by other agencies'.

#### Tables 36.8

The table indicates number of building permits and completion certificates issued in municipal areas in private

sector. The series have been built up from 1961 onwards. For the year 1961 data relate to private construction in municipal towns with population of 75000 and above as per 1961 census.

From

1971 onwards, data relate to all municipal towns with population of 1,00,000 and above as per 1971 census. For the towns for which data were not available, the number of building permits/completion certificates issued have been estimated by applying the average rate of the last three years relating to the concerned state.

#### Tables 36.9 and 36.10

These two tables present respective data on distribution of households by type of occupancy and by the size of dwelling units occupied in terms of number of rooms possessed in case of urban and rural areas separately.

#### Tables 36.11 and 36.12

These tables present data on sources of drinking water and the availability of safe drinking water to the households in rural and urban areas separately.

#### Table 36.13

Data on availability of electricity as a facility in the dwellings as revealed by Census and NSS results have been shown here separately for rural and urban areas.

#### Tables 36.14 and 36.15

These two tables are concerned with availability of toilet facilities in the dwellings and the type of latrine (flush type, septic tank, service latrine etc.) separately for rural and urban areas.

#### Table 36.16

This table presents data on average per capita area of dwelling unit and average covered area by type of dwelling unit relating to NSS 51st round.

(1) In case of the 1961, data for Hararyana and Chandigarh are included in Punjab.

**Notes:**

1. Upto the end of year 1961, data relate to private construction in municipal towns with population of 75,000 and above as per 1961 Census. From 1971, data pertain to all municipal towns with population of 1,00,000 and above as per 1971 Census.
2. There is no major town coming under the coverage given above in Himachal Pradesh, Nagaland, A & N. Islands, Arunachal Pradesh, Dadra & Nagar Haveli, Goa, Daman & Diu, Lakshadweep, Mizoram and Pondicherry. Hence these States/Union Territories are not included in the above table.
3. Estimates are based on replies to a main questionnaire issued to the municipalities. In case of non-responding municipalities, estimates have been arrived at by applying the average rate for the last three years relating to the concerned state.

Note:- Data includes estimated figures also.

# LOCAL BODIES

---

# CHAPTER 37

## LOCAL BODIES

The term 'Local Bodies' refers to such institutions of Government which carry on the local affairs viz., Corporations, Municipalities, Notified Area Committees, Town Area Committees, District Boards, Panchayats etc. This section, however, presents data regarding income and expenditure of Municipal Corporations only. The information has been supplied by the individual corporations.

Municipal Corporations are relatively the most developed form of Local Self Government and have generally been established in metropolitan areas or big cities. By and large, these have been constituted under specific legislative enactment. With growth of cities, corporations have been established in a number of towns. They have wider powers and they enjoy more autonomy than the other local bodies. The chief executive authority of a corporation is the Commissioner who is independent of the elected body. The corporation elects its Mayor and Deputy Mayor out of the elected members.

**Table 37.1**

This table provides data regarding income and expenditure of Municipal Corporations. Income has been presented by financial resources, namely (a) tax revenue and (b) non-tax

revenue. The tax revenue, by and large, consists of the taxes on:

- (i) Property
- (ii) Service
- (iii) Octroi
- (iv) Terminal
- (v) Trade & Callings
- (vi) Animals and Vehicles
- (vii) Toll
- (viii) Miscellaneous

The Non-tax revenue generally comprises the following items:

- (i) Government grants
- (ii) Rents from municipal properties
- (iii) Revenue from municipal utilities and undertakings
- (vi) Licence and various other fees including those from municipal institutions
- (v) Interest on municipal investments, and

- (vi) Fines.

The expenditure of Municipal Corporations which generally comprises the following items:

- (i) General Administration & Collection of Revenue
- (ii) Public Health
- (iii) Safety and Convenience
- (iv) Education
- (v) Public Works
- (vi) Miscellaneous

The table contains data only for these Corporations for which latest data has been made available by the Corporation. For data of other corporations, previous years' issues of this annual publication viz. Statistical Abstract India may please be seen.

**Table 37.2**

This table provides the information in three tier Panchayati Raj System besides number of districts, DRDAs and blocks.

**Table 37.3**

This table provides the information about breakup into SC/ST/Women in three tier Panchayati Raj System.

# ELECTORAL STATISTICS

---

# CHAPTER 38

## ELECTORAL STATISTICS

This section provides results of the election to both Houses of the Parliament and to the State Legislative Assemblies and Councils, bringing out broadly the salient features of the electorate in the country.

Under the Indian Constitution there shall be a Parliament for the Union of India consisting of the President and two houses to be known respectively as the Council of States (Rajya Sabha) and the House of People (Lok Sabha). Similarly in each State, there shall be a legislature consisting of either one House known as the Legislative Assembly (Vidhan Sabha) or two houses known as the Legislative Council (Vidhan Parishad) and the Legislative Assembly (Vidhan Sabha). The election to the House of People and to the Legislative Assemblies of every State shall be on the basis of universal adult franchise; that is to say every person who is a citizen of India and has attained the age of 18 years, if not otherwise disqualified, shall be entitled to be a voter at any such election.

The Legislative Assembly of each State is to be composed of members chosen by direct election. The total number of members in the legislative Assembly of State shall not in any case be more than 500 or less than 60 while Special provisions have been made to provide 40 seats in the Legislative Assemblies of the States of Goa and Mizoram

respectively. Similarly for the Union Territory of Pondicherry and NCT Delhi provision has been made in the constitution to provide for 30 & 70 seats respectively in the Legislative Assembly. The strength of the electoral college of the Union Territories is laid down in the provisions of the Representation of the People Act, 1950.

Representation in the Legislative Council of each State, where there is such a Council will be confined to Local Authorities, University Graduates and Teachers, Nominees of the Government and elected representatives of the Legislative Assembly.

#### Tables 38.1 and 38.3

These two tables show the number of voters and seats in each State for the purpose of election to the House of People and the Legislative Assemblies respectively.

In these two tables, column 3 shows total number of electors (voters) in all constituencies whereas column 4 shows the number of votes polled. The percentage of votes polled to total votes in contested constituencies is shown in column 6. This indicates the extent to which the voters exercised their franchise. The difference between "votes polled" and "valid votes polled" shows the number of votes which were

polled either wrongly or were rejected.

#### Table 38.2

This table depicts the composition/allocation of seats in the Rajya Sabha.

#### Table 38.4

This table shows the number of seats in the Legislative Councils and the number of constituencies in the State Legislative Council for the purpose of the election.

#### Table 38.5

This table shows Statewise number of valid votes polled, percentage of valid votes polled and seats won according to parties for the election to the Lok Sabha in 1999.

#### Table 38.6

This table gives the Statewise expenditure incurred on (i) preparation of electoral rolls and (ii) conduct of election for election to the Lok Sabha in 1991, 1996, 1998 and 1999.

- (1) The General Election to Assam, Haryana, Kerala, Tamil Nadu, Uttar Pradesh, West Bengal and Pondicherry Legislative Assemblies was held in 1991. The figures are exclusive of data in respect of assembly constituencies where the poll was countermanded in Uttar Pradesh.
- (2) This relates to the figures for Punjab which went to poll in 1992.
- (3) This includes figures for Rajasthan, Himachal Pradesh, Tripura, Nagaland, Meghalaya, Mizoram and Uttar Pradesh which went to poll in 1993.
- (4) This includes figures for Andhra Pradesh, Goa, Karnataka and Sikkim which went to poll in 1994.
- (5) This includes figures for Arunachal Pradesh, Bihar, Gujarat, Maharashtra, Manipur and Orissa which went to poll in 1995. Figures are provisional.
- (6) This includes figures for Assam, Haryana, Jammu and Kashmir, Kerala, Pondicherry, Tamil Nadu, West-Bengal and Uttar Pradesh which went to poll in 1996.
- (7) This relates to the figures for Punjab which went to poll in 1997.
- (8) Data relates to states of Gujarat, Meghalaya, Himachal Pradesh, Tripura, Mizoram, Rajasthan, Madhya Pradesh, Goa, Delhi and Nagaland.
- (9) Data relates to the figures for Andhra Pradesh, Arunachal Pradesh, Karnataka, Maharashtra and Sikkim. Data for Arunachal Pradesh pertains to 56 constituencies where polling took place.

Note: Data for the years 1992-2000 has been compiled by Central Statistical Organisation on the basis of reports of the Election Commission.

\* Number of Seats & Data relates to those states which went to Poll during the Year.

# CHAPTER 39

## FIVE YEAR PLANS

**T**hese tables are concerned with Plan Outlay and Expenditure for Public Sector.

### Tables 39.1

Table 39.1 presents figures of plan outlay for Ninth Plan period (1997-2002) and actual expenditure during the Annual Plans for 1997-98, 1998-99, 1999-00, 2000-01 and Revised estimates for 2001-02.

### Table 39.2

Table 39.2 presents plan outlay for Tenth Plan period (2002-07) for public sector by heads of development for States & Union Territories.

### Table 39.3

Table 39.3 presents approved outlay for 2000-01 and 2001-02.

### Table 39.4

Table 39.4 presents actual expenditure and revised outlay for 2000-01 and 2001-02 respectively.
